

WATER PLANT PURCHASE ELECTION WAS ILLEGAL, SUPREME COURT SAYS

JUDGE GRIMM'S DECISION IN FAVOR OF CITY REVERSED BY HIGHER COURT TODAY.

MEANS NEW VOTE SOON

Mayor Fathers States That Municipal Ownership Question Will Again Be Submitted at Early Date.

In its decision given today on the Janesville municipal ownership question involving the purchase of the plant of the Janesville Water company the supreme court reversed the decision of Judge Grimm of the circuit court and held that the election at which the question was submitted to the Janesville electors was illegal on the ground that it was improperly noticed. The decision goes against the city, which was the respondent in the appeal, and together with the commission councilmen and the city attorney, W. H. Dougherty.

Means New Election.
The question will again be submitted to the Janesville voters, according to Mayor Fathers, who stated that an election would be called as soon as the city council was reorganized with the new commissioner, Peter J. Goodman, in his office. Mr. Goodman assumes his office on April 21, so that it is probable that a special election will be called on the first Tuesday in May, which would give ample time for the ten day notice. Mayor Fathers and the two councilmen now in office have taken the attitude that the matter should be cleared up as soon as possible.

Mr. Fathers declared that the injunction case of the water company to prevent the enforcement of the water rates ordered by the railroad commission several years ago, which is now pending in the circuit court at Madison, will be taken up at once by the city attorney in an effort to dissolve the injunction and secure the workings of the new rates.

Analyze Situation.
City Attorney Dougherty, in a statement today, analyzes the water case situation as follows:

"When this question was submitted to the voters in April, 1912, the notice of election was one day short. There was, however, a serious question about the validity of the public utility law, which question was favorably settled in the so-called Racine case. The slight divergence in the matter of notice was not considered vital, in view of the wide publicity given to the question, but the supreme court has overtaken the opposite view.

"The infirmities of this case were present from the first, and no action

could cure them. The council could not submit the question of its own volition because it had already been submitted and was either good or bad. A new election could be taken on ten days' notice, and if the voters agreed to the purchase it can be immediately certified to the railroad commission without delay. In fact, this plan spells no delay in acquiring this plant, except the ten days required for a notice of election. This matter will probably be taken up upon the reorganization of the council.

"The expense to the city in this litigation for all purposes will probably not exceed \$100, this being for costs and disbursements."

Validity of Referendum.
The supreme court was asked in this appeal to decide whether the Janesville water plant purchase referendum was valid because of alleged insufficiency in submitting the question to the voters. The question submitted was, "Shall the city of Janesville purchase the Janesville Water company?" The voters decided affirmatively 1,238 to 1,041. The city thereupon began proceedings for a certificate of valuation before the railroad commission with the purpose of immediately taking possession and ownership. A court commissioner issued an injunction upon the company's application, restraining the city from proceeding with the proceedings before the railroad commission. The Rock county circuit court dissolved the injunction, and the company took this appeal with the object of obtaining a permanent injunction.

The company, besides insisting the question put to the voters was insufficient and misleading, argued that the ten days' previous notice required by law to the submission of any special question to the electors, was not given.

Holding in Racine Case.
In the Racine case, the supreme court held that the question, "Shall the city of Racine purchase its water works," was sufficient and not misleading, inasmuch as there was only one water plant in Racine. The Janesville water company said that cases were not parallel, and insisted that the voters of Janesville, under the question submitted, did not vote upon the question whether the city should purchase the existing water plant of the Janesville Water company.

City Attorney Dougherty waived aside technicalities, saying: "The argument rests upon the legal distinction between the 'company' as a corporate entity and the 'plant' owned by it and would probably occur only to the legal mind. Our water system has been popularly referred to as the 'water company' and at all times synonymously with 'water works' and 'water plant.'"

Upon the question of lack of ten days' previous notice to the voters, the supreme court held that the public utility law makes no requirement as to notice.

gross police magistrates, or other constitutional officers. The new law granted them the right to public office and for the president and city officials.

FORMER SUPERIOR BISHOP GOES TO SPOKANE AS BISHOP OF NEW DIOCESE

Milwaukee, Wis., April 9.—The Right Rev. A. F. Schinner, formerly Roman Catholic Bishop of Superior, has been appointed Bishop of the newly created diocese at Spokane, Washington, according to the word that reached here today.

ILLINOIS WOMEN TO COMMENCE NEW STEPS

Suffragettes insist They Should Vote in National Affairs and Such Attempts Are to be Started.

Chicago, Ill., April 9.—It is declared that the new women voters of Illinois demonstrated their desire to vote and their proper comprehension of civic matters at Tuesday's election. The women announced they would unite their intention at an early day, but women suffrage could only be granted by the state basis law.

Under the equal suffrage act passed by the last legislature, women cannot vote for state officials, members of legislature, members of congress, police magistrates, or other constitutional officers. The new law granted them the right to public office and for the president and city officials.

PARTY LINES DISAPPEAR IN SENATE FIGHT OVER CANAL TOLLS; ROOT AND LODGE AID WILSON; SOME DEMOCRATS OPPOSE HIM

Party lines are disappearing in the senate fight over canal tolls. Among the leading Republicans who are supporting the president are Lodge of Massachusetts, Root of New York and Burton of Ohio. The leading figure in the fight on the president's side is a Democrat—O'Gorman of New York. Many western Democrats are lined up against the repeal of the free tolls clause, among them being Walsh of Montana, Ashurst of Arizona, Thomas of Colorado and Pittman of Nevada.

MAXFIELD'S VICTORY PLEASES GOVERNOR

McGovern Sees Popular Approval of His Appointment in Result of Tuesday's Election.

(SPECIAL TO THE GAZETTE.)
Madison, Wis., April 9.—In the governor's eye there is nothing over the result of the judicial election in the eighth judicial circuit and the contest for municipal judge in Rock county.

"Both elections have vindicated the appointments made by Governor McGovern," said Harry Curran Wilbur, executive clerk to the governor. "In each case the electors have approved the choice of the governor, registering their approval by majorities reported as two to one or better."

"In the eighth judicial circuit Judge George Thompson was appointed by the governor to succeed Judge Eugene W. Helms, resigned. This action was taken only after the qualifications of the several candidates for the place had been carefully considered. After the appointment had been made and announced a bar association was organized in that circuit and this body, non-existent at the time the appointment was made, adopted resolutions complaining that the governor had made an appointment without consulting this ex post facto association. A fight against the election of Judge Thompson was then organized, but the appointment of the governor was affirmed by a majority of two to one. "In Rock county Governor McGovern named Judge Harry L. Maxfield as municipal judge. While the matter of the appointment of Mr. Maxfield was being considered his enemies and those of the governor made attacks upon him. Mr. Maxfield made a splendid record as municipal judge, but despite this fact two candidates appeared in the field against him. After a hard campaign Mr. Maxfield was elected for the balance of the unexpired term with a large plurality. "The people's approval of the governor's judgment in each instance was overwhelming and the principle of a non-partisan efficient judiciary has been sustained again. Naturally, every one in this office is wholly satisfied."

OPENED IRRIGATION CONFERENCE TODAY

Secretary Lane Called Gathering to Order at Denver Today to Formulate New Policy.

Denver, Colo., April 9.—An irrigation conference called by Secretary Lane for the purpose of deciding upon a new policy for the development of the western irrigation opened here today. Governors and their officials and secretaries of state, officers of the interior department and the irrigation experts from other parts of the United States and several other countries were in attendance today. Early in the day the governor conferred with the officers to determine the progress for the session. It was expected the session would continue through the remainder of the week.

FIND CANADIAN CRIMINAL GUILTY OF MURDER TODAY

Morden, Manitoba, April 9.—John Krafchenko, whose exploits with the Winnipeg and provincial police has made him notorious throughout Western Canada, today was found guilty of the murder of Manager H. M. Arnold of the bank of Montreal at Plum Coulee and the theft of \$5,000, December 3d. The jury was out less than two hours.

ORLAND MANSION IS RUINED BY SUFFRAGISTS NEAR BELFAST, IRELAND

Belfast, Ireland, April 9.—Suffragists continued on their fire-brand campaign today by burning Orland, an old mansion near Carrick Fergus or Belfast, Lough. The usual suffrage literature was found around the grounds.

**COMMON FOLK'S HOMES
NEXT TO JOHN D'S NOW**

Cleveland, April 9.—Workmen were busy today marking off the building lots on a forty acre tract adjoining the Forest Hill estate of John D. Rockefeller. The long a small city of little homes will spring up and the richest man in the world—if he returns to Ohio despite tax commissioners—will have a horde of just common folk for neighbors. The tract was sold to a land company several weeks ago for \$250,000. Most of the homes are to be erected at once.

FOUR FEMALE JEWELRY CLERKS WERE HELD UP

Worcester, Mass., April 9.—Four women clerks in the jewelry store here were held up by a highwayman last night. One of them is in a critical condition. No money was gotten by the robber.

Small Hats This Season

Fashion has swung back again to the small hat. There are many other radical changes in millinery styles this spring. Just turn to the advertising columns in The Gazette and notice the interesting stories they are telling from day to day. Fashions come and go as fast as the scenes of a motion picture. The stories are ever alert to follow and proclaim the fashion-changes—and the advertising is the voice of the stores. To keep up-to-date on the fashions this season one must be a reader of advertising. Every line of it is news of great interest and importance.

STRENUOUS EFFORTS TO SAVE GUNMEN ON EVE OF EXECUTION

Possible That "Gip the Blood" May Be Reprieved at Last Minute.

New York, April 9.—There were persistent rumors today that at least one of the four gunmen under sentence of death for the murder of Charles Becker, a former police official, who was convicted as an instigator of the murder, was given a permit by the court today to see the gunmen and try to obtain a statement from them to be used in a new trial of his client. In case the condemned men refuse to make a statement, he is prepared to make an appeal to the supreme court for the appointment of a special commission to take the deposition. An alibi affidavit for "Dago Frank" Verofski, that he was not present at the time Rosenthal was killed and sworn to by a Harlem dance hall owner, Frederick Reo, who declares that he went to "Dago Frank's" with a letter from a woman of the underworld, who had been arrested, and five, or the time Rosenthal was killed. Every effort possible is being made to save the lives of the four gunmen despite the statement that Governor Glynn said he would not pardon any of them.

OPERATION ON KING GUSTAVE SUCCESSFUL

Swedish King Resting Much Easier Today After Dangerous Ulceration is Removed.

Stockholm, Sweden, April 9.—King Gustaf was operated upon today at the Sophic Hospital here. The surgeon found that he was suffering from ulceration of the stomach. The operation which was in charge of Professor Berg, well known Swedish surgeon, lasted two hours. It was announced afterwards that the royal patient's condition was successful, although his majesty was weak.

TO URGE NATIONAL PROHIBITION TODAY

Democrats and Progressives of Maine Take Active Steps in Big Issue of National Importance.

NAUGHTY ST. LOUIS WANTS NUDE STATUES

St. Louis, April 9.—The Mound City is naughty. The woman's Protective League today said so, and all because a design for a fountain at the Central Public Library includes two nude figures of girls. According to the N. P. L. "children and young people will congregate around the fountain and remarks made in their hearing by men will not be for the best interests of the city. This is the second time the question whether nude figures should be permitted on statues in public parks has shaken St. Louis. Last spring a controversy arose over the nude figure on a monument of the German-American journalist, Pretericus, Schurz and Daenzer, entitled the "Naked Truth," but the design was finally accepted after many weeks of heated discussion. Miss Nancy Goodman, who designed for the fountain was accepted, insists that some people do not appreciate art.

WESTERN GOVERNORS DISCUSS IRRIGATION

Considering Plans for Booming Irrigation Plans at Denver Convention—Secretary Lane Presides.

Denver, Colo., April 9.—The building and managing of irrigation projects in the West and the ways and means of financing such work will be considered at the irrigation conference called by Secretary of the Interior Franklin K. Lane which began here today. In addition to several irrigation and reclamation experts from the department of the interior, representatives are present from Arizona, New Mexico, Oregon, South and North Dakota, Utah, Washington and Wyoming. Secretary Lane's original call stated that the conference would be devoted "especially to the consideration of methods of co-operation in reclamation and irrigation work between the states and the federal government." It was expected that such co-operation, Governor Ammons of Colorado, and Governor J. M. Carey of Wyoming, called the meeting of Western governors Tuesday to agree on a program for today's meeting. As a result, it was expected that many of the governors would be able to stand together on a program of development. The Rock Mountain state governors are very sanguine over the results of today's conference. Before the meeting Governor Ammons said: "The general conference of the country will be held this year at Madison, Wis., in June. The existing committee of that organization has agreed to take up some Western questions at that meeting. The conference called by Secretary Lane, comes, therefore, at a proper time so that its results may be brought before the general conference. If this meeting brings about a co-operation between the federal and state governments and works out some practical system for throwing safeguards about the irrigation securities, the very greatest possible benefits would come to the West." It was expected that representatives of financial interests would appear to discuss the flotation of irrigation bonds. The visiting state executives will be the guests of honor at a ball given at El Jebel Temple tonight.

BARNHARDT CLAIMS POSTOFFICES LAX

Declares Exemption of Tolls Material Not Marked as Advertising.

Washington, April 9.—Representative Barnhardt, democrat, of Indiana, author of the newspaper publicity section of the postoffice law, told Postmaster General Burleson today that he believed certain postoffices were lax in marking material as advertising matter material on the repeal of the Panama tolls exemption question, which Mr. Barnhardt alleges he has reason to believe is being used to ship goods to the United States. He said he would be ready to receive any evidence of violation of the law.

ANNOUNCES A CURE FOR TUBERCULOSIS

Physician States Fumes of Sulphuric Acid Will Cure Incipient Cases.

Cincinnati, Ohio, April 9.—By inhaling the fumes of sulphuric acid cases of incipient tuberculosis can be cured according to the public announcement made today in the convention of the American chemists in meeting here with the Great Lakes Exposition. Dr. Gudeman stated that while this had been known for some time among certain physicians, yet the demonstrations along this line had not progressed far enough to make the announcement public until today.

HUERTA ADMITS THE VICTORY OF REBELS

Announces The Fall of Torreón in His Capital This Afternoon.

(BY ASSOCIATED PRESS.)
Mexico City, Mex., April 9.—The first admission that General Villa and the rebel army have occupied Torreón was made today by the Huerta government.

TO AID REFUGEES

Washington, April 9.—Secretary Bryan said that Consular Agent Caruthers was under instructions to continue his efforts with General Carranza for the protection of the property which refugees left in Torreón and to obtain if possible permission for the refugees to return to their homes.

FIGHTING AT TAMPAICO

Washington, April 9.—Over night dispatches to the navy department from Rear Admiral Fletcher report fighting still in progress in Tampico without advantage to either side. On account of a heavy northerly Rear Admiral Mayo was discouraging refugees from going aboard ships in the harbor.

MAINE REPUBLICANS ARE IN CONVENTION

Platform Adopted Criticizing Panama Tolls Question and Mexican Policy.

Augusta, Maine, April 9.—The republicans met in state convention here today and the platform upon which the candidates for the state at the June primaries will stand. Nearly 1000 delegates reported.

The Rock Mountain state governors are very sanguine over the results of today's conference. Before the meeting Governor Ammons said: "The general conference of the country will be held this year at Madison, Wis., in June. The existing committee of that organization has agreed to take up some Western questions at that meeting. The conference called by Secretary Lane, comes, therefore, at a proper time so that its results may be brought before the general conference. If this meeting brings about a co-operation between the federal and state governments and works out some practical system for throwing safeguards about the irrigation securities, the very greatest possible benefits would come to the West." It was expected that representatives of financial interests would appear to discuss the flotation of irrigation bonds. The visiting state executives will be the guests of honor at a ball given at El Jebel Temple tonight.

LODGE URGES REPEAL OF TOLL EXEMPTIONS

Republican Senator Vehemently Supports President's Panama Canal Policy.

(BY ASSOCIATED PRESS.)
Washington, April 9.—Senator Lodge, ranking republican member of the foreign relations committee, addressed the senate today in support of President Wilson's Panama canal tolls policy. He stated that the policy is the legal right of the United States to exempt its shipping, foreign as well as coastwise, from tolls, but he declared that a decent respect to the opinions of mankind and the "dis-trust and in some cases dislike" with which the United States is regarded abroad, demanded prompt repeal of the exemption clause of the canal act.

Worth Knowing.

Few people will say that Noah took more than two of each kind of animal and fowl into the Ark, yet here is what the Bible says on the subject (Gen. vii:2): "Of every clean beast thou shalt take to thee by sevens the male and his female, and of beasts that are not clean by two, the male and his female." (Gen. vii:3): "Of fowls also of the air by sevens, the male and the female; to keep seed alive upon the face of all the earth."

Light's Influence on Flowers.

It is known that light influences very largely the aroma of flowers. A garden is more fragrant when it is shaded than when the sun is allowed to shine in full blaze upon it. This, at any rate, is the conclusion of a Frenchman who has recently made a vast number of experiments. That which affects the fragrance of flowers is not the oxygen of the atmosphere, as has been commonly supposed, but the light.

Chinese Skillful Farmers.

For intensive farming the Chinese can teach almost any other nationality on earth. Their methods would be impractical here, but for sheer ability to obtain from the small space of ground the greatest yield they have no peers.

Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure, be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

GOVERNOR'S LETTER GETS SCANT NOTICE

FEW ROCK COUNTY TOWNSHIPS APPROVE CALLING OF SPECIAL SESSION.

RESOLUTIONS PASSED

Voters in Some Instances Welcome Opportunity to Voice Vehement Protests at Administration Methods.

Madison, April 9.—From the generally unfavorable tone from the town meeting repiles it is believed that Governor McGovern will refuse to call an extra session of the legislature to repeal certain appropriations.

Governor F. E. McGovern's referendum on a cold reception in the majority of Rock county townships when it was brought up at the town meetings on Tuesday. In most instances it was entirely disregarded but the others the voters welcomed the opportunity to voice vehement protests at the extravagance of the present state administration, scolding the idea that any relief would result from a calling together of the very legislature which was responsible for the high appropriations which resulted in the high taxes.

As far as could be learned today two towns, Turtle and Clinton, voted in favor of calling a special session of the legislature. Where the question was discussed at length, however, there was manifest exactly the same sentiment that was obtained at the Rock county mass meeting held in Janesville a month ago. In fact at the Janesville town caucus, O. D. Brace presented a copy of the resolutions passed at the Janesville mass meeting and it is probable that these will be forwarded to the governor.

Milton Resolutions.

There were nearly 300 voters present at the Milton town meeting, which was held at Milton Junction. When the town clerk, D. I. Bottrell, presented the governor's address and the questions to be submitted to the voters it was met by calls of "Cut it out," "We don't want to hear it," "Put it in the waste basket," and similar expressions of misapprobation.

But upon the statement of Frank R. Morris that he had some resolutions prepared that would express to the governor the sentiment of Milton, the clerk was authorized to read the governor's questions. At the end of the reading, Mr. Morris presented his resolutions and they were adopted with an unanimous vote of 1. Following are the resolutions:

"Whereas, The governor of our state has asked for an expression of our opinion as to the feasibility of calling a special session of the legislature to cut down the excessive appropriation of their regular session and claims a cut of \$4,000,000 can be made in the appropriations for the university and state aid highways.

"The governor doesn't mention the root of the taxation evil, the use of useless and salaried officials, and therefore we, the voters of the town of Milton in town meeting assembled, do hereby adopt the following resolutions:

"Resolved, That we consider it the governor's duty to devise some means for our relief.

Oppose State Aid.

"Resolved, That we wish to go on record as unalterably opposed to state aid highways. We believe it has created and will father us with a lot of useless and extravagant officials, and is a net negative of the best results.

"Resolved, That we favor the university and do not wish to hamper its work, but from what we know and read in the state press, we conclude the administration is wasteful and extravagant.

"Resolved, That we hereby commend our representative in the assembly, Alexander Paul, upon his attitude and vote in the last session, and if a special session is called, we recommend that he vote for the repeal of the state aid to highways laws, and a thorough investigation of the university.

"Resolved, That a copy of these resolutions be mailed to the governor, Rock county's representatives, Alexander Paul and Judge Rosa, also Senator L. E. Cunningham."

Letters Turned Down.

There was a large attendance at the Fulton town meeting. When the time came for the reading of McGovern's letter, Owen's letter, Rosa's epistle, and other communications with which the township officers have been flooded for a week preceding election, Town Clerk O. P. Murwin stated that he had them in his possession and would be pleased to present them to the meeting. By a unanimous vote of the caucus, however, it was decided not to permit the reading of the various communications, and the town clerk was instructed to inform the governor as to the action. He was also instructed to let McGovern know how the voters in the town of Fulton felt about the proposition and that the voters would show more definitely how they felt about the various questions submitted at the polls next November.

This was the unanimous sentiment of all classes at the caucus, "regardless to former politics or religion," according to the report received of the meeting. It was calm that Fulton voters resented the governor's effort to shift responsibility of calling a special session of the legislature onto the farmers of the state. The Gazette's correspondent adds that "if Rosa had been here he would have fared no better than the governor."

In the town of Janesville the sentiment was decidedly against a special session of the legislature. The following resolution was adopted:

"We, the voters of the town of Janesville, realizing the temper of the voters of the towns as well as of the cities, do not at this time take kindly to the calling of a special session of the legislature, the sole aim being to repeal or reduce the state aid to highways, while, as we believe, costly commissions are maintained by the state which are equally as much to blame for high taxes as the road law. We also affirm and believe that the time has been too short to discuss the question at issue, for as a matter of fact, many towns have by their town boards made recommendations for sums to be expended on highways for 1915, and under the uncertainty that a special session might or might not repeal the appropriation as it now stands it would place the town in an uncertain position as to what to do in the matter of a highway levy.

Use Own Judgment.

"Therefore, be it resolved, that the voters of the state of Wisconsin act as their best judgment may direct

JOHN R. TRACEY DIES AT HIS SPARTA HOME

Formerly Resided Here—Is Nephew of Michael and Dennis Hayes of This City.

John Raymond Tracey passed away last evening at 10:45 o'clock at the home of his mother, Mrs. Hannah Tracey, in Sparta, after a long illness. At his bedside were his mother, Miss Kathryn Madden, his brother, Leo H. Tracey, and his uncle, Michael Hayes of this city.

Mr. Tracey was born in Stuart, Ia., January 7, 1887. When he was four years old his father passed away and left his mother with three small children. Mr. Tracey came to Janesville with her two sons in 1903, following the death of her only daughter. During his residence in Janesville, John entered the University of Notre Dame, where he made many friends and established a high record for scholarship.

After finishing his university course, he came to Janesville and secured a position with the C. M. & St. P. railroad at the local freight office. His advance was steady. He secured not only the commendation of his fellow workers, but also the notice of his superior officers, and when a vacancy was made at the station of Kilbourn, Wis., Mr. Tracey was called upon to fill the gap. Surmounting the greatest of difficulties, and overcoming the handicap of extreme youthfulness, he was placed on the regular staff of relief agents for the system.

For about a year he was occupied with relief work at Madison, Wis., and then at Camp Robinson and Sparta. On February 15, 1912, he secured an appointment to the agency of Sparta, which at the time was the second largest shipping point of the C. M. & St. P. railroad. At this time he was the youngest agent in the employ of the road. On entering his duties at this place, he discovered a large deficit, and through his efficient work the force was reorganized and the losses traced in such a manner that the company was able to recover the entire sums.

He had been in poor health for many months, but was too ambitious to cease his labors until his health was entirely broken. Last summer he entered the Pines Sanatorium at the Pines, Wis., feeling that a long rest would restore his lost strength. With little improvement during the few weeks he was there, he was advised to return home to be under the care of his mother. To his six long months of suffering, he remained patient and resigned, never complaining. Each day he was visited by the good priest of his parish, who counseled and helped him to bear his misfortunes.

He was an amiable, fair-minded young man, ambitious and energetic, always looking for new possibilities and new achievements. When he was a child his friends increased, those he made enjoying the pleasantness of his manner.

He was a member of the Knights of Columbus and C. P. O. Elks. His body will be brought to this city tonight over the C. M. & St. P. road, arriving here at 8:15, and will be met at the depot by representatives from both orders. Funeral notice will be given later.

John Godfrey.

O. D. Brace received the news this morning of the death of John Godfrey of Osseo, Minn., who was born in Lima, Rock county, on October 14, 1846, and was a resident of the town of Harmony for the past ten years, moving to Osseo, Minn., in November, 1913. He passed away on April 8, 1914. He leaves a wife and four children: Mrs. D. D. Brace and Leroy D. Bert and Rufus Godfrey, all of Minneapolis. The funeral services will be held at Whitewater, Saturday, April 11.

E. Griffith.

Last evening about one o'clock, Mr. E. Griffith passed away at his home in Janesville after two months' illness resulting from a paralytic stroke. He was born in New York state on February 21, 1832. He came to Wisconsin in 1848 and settled in Richland county. He has lived in Evansville for the last eleven years. Besides his wife he leaves two daughters, Mrs. S. Gannon of Milwaukee, and Mrs. Weichman of Beloit; one son, Clarence, of California; two brothers, F. M. and O. G. Griffith, both of Evansville. He also leaves four sons and children and two great grand-children. The services will take place from his home Saturday afternoon, Rev. Coon officiating.

Mrs. William Carpenter.

Mrs. William Carpenter died at her home in Evansville last night after an illness of six months' duration. She was formerly Elizabeth Ballard

Rumford THE WHOLESOME BAKING POWDER

It is essential in the making of raised foods that you choose a leavener that not only raises the cake, biscuit or roll just right, but also adds to their nutritive value.

Rumford accomplishes this by restoring to the flour, in part, the nutritious phosphates of which fine white flour has been deprived. It will make your cake of that even texture, flavor and appetizing appearance sought for by all good cooks. Its use insures

CAPT. E. G. HARLOW DIED LAST EVENING

Highly Respected Citizen and War Veteran Passes Away After A Long Failing Illness—Funeral on Monday.

Captain Edward G. Harlow passed away last evening at nine o'clock at the home of his son, John C. Harlow, 1020 Ravine St. Captain Harlow has been in failing health for a year and a half. He was born in Sackets Harbor, N. Y., in November, 1832, and was married to Fanny Hone of that city in Trinity church, Janesville, August, 1854. Two brothers, George Harlow, one secretary of the state of Illinois, and John B. Harlow, civil service commissioner under Grover Cleveland and postmaster at St. Louis, have preceded him to the other world, also two sisters. One sister, Mrs. Amsbury of Champaign, Ill., survives him.

Mr. Harlow enlisted in United States service in August, 1862, and was mustered in as First Lieutenant of the 12th Wisconsin battery. Lieutenant Harlow recruited 70 men at Janesville and was assigned to the 15th Corps, army of the Tennessee, participating in the following engagements: Corinth, Miss.; Raymond, Miss.; Champion Hills, Siege of Vicksburg, Chattanooga, Tennessee; Battle of the sea, Siege of Savannah, Bentonville, Goldsboro, N. C., also took part in a number of minor engagements and performed garrison and provost duty, bearing prominent part in the grand review at Washington, D. C., May 24th, 1865. He acted as Adjutant General on General Logan's staff, also as aide-de-camp to General Stouffer and was promoted captain for meritorious services during the war. He was honorably discharged at Madison, Wis., June 10, 1865, by reason of the close of the war and the mustering out of troops. He was a member of the Grand Army of the Republic, and of this city in which he filled various offices, besides being commander. He was a loyal member of Trinity church, serving on the vestry for many years.

Mrs. Harlow's death occurred in 1910. The children living are Edward H. Harlow of Point Richmond, California, Mrs. J. J. Wragorich of Detroit, Mich., and Mrs. Harry Garbutt and Joan C. Harlow of this city.

The funeral will be held Monday afternoon from Trinity church and it is expected Mrs. Wragorich and Mr. Harlow of California will be here. Rev. Henry Wilbur will officiate at the services at the church and the Grand Army of the Republic at the grave.

William Norton.

The remains of William Norton arrived in this city this morning at eleven-thirty, from Denver, and were taken to the St. Patrick's church where a short funeral service was held. The remains were interred in Mt. Olivet cemetery. The pallbearers were: J. H. B. and T. P. Ryan, A. L. Mahoney, Edward Dillon, and John Ryan.

Mrs. Sabine McGuire.

Funeral services for Mrs. Sabine McGuire were held this morning at ten o'clock from the St. Augustine's church in Footville. Rev. Fitzgerald officiating. The remains were interred in Mt. Olivet cemetery in this city.

The pallbearers were Patrick and John Ryan, Patrick, John and John Knight and Harry Sullivan.

When You Serve Fruit.

Lemon juice sprinkled over fruit sliced for dessert or used in a salad will prevent its turning dark.

ALBERT C. DUENOW

Albert C. Duenow passed away at his home in Leyden Wednesday, at ten o'clock, at the age of 37 years. He had been ailing for some five years with tuberculosis. He leaves besides a wife, two sons and three daughters. They are, Carl, age 13, William, aged 4, Ida, age 10, Frances, age 8 and Marion, age 15 months. A father and mother reside in Watertown, Wisconsin. Two brothers, Otto of La Prairie, and George of Watertown, survive, and also two sisters, Mrs. Louis Rowles of this city and Mrs. Selma Wolf of Watertown. The funeral services will be held Saturday morning at eleven o'clock from the home in Leyden. The Rev. T. J. of the St. Paul's Lutheran church officiating. Interment will be made at Oak Hill cemetery.

ENJOY YOUR MEALS

Take Mi-on-a—A Simple, Harmless Remedy for Indigestion or Upset Stomach.

Let us tell you how to enjoy your meals so that even the heartiest dinner will set well on your stomach, cause no unpleasant or disagreeable after-effects.

There is no hard work, no need of a rigid diet list; no disagreeable medicine; instead, eat what you like and use Mi-on-a Tablets. They are not only a digestive and antacid giving prompt and effective relief but a specific for disordered stomachs. Do not endure indigestion another day. Mi-on-a surely and safely strengthens the digestive organs, soothes the irritated membrane, and increases the flow of gastric juices so that the stomach can care for the food as nature intended.

It is needless to have a bad stomach or suffer after-eating misery. Get from Smith Drug Co., or any druggist a fifty cent box of Mi-on-a today—take two or three tablets at the first sign of distress. Keep it in the house—carry it when traveling—it's at all times the dependable stomach remedy.

DR. S. F. RICHARDS PICKS CHURCH FIVES

Local Enthusiast Changes Positions of Players in Selections.

In picking an all-league team many important conditions and circumstances must be taken into consideration. Especially so is this true in a small league, such as our Sunday School Athletic League. When there are not many players to fight for positions on their respective teams, their individual qualifications are not brought to light. The team is switched around to fit the man, rather than the man changed to fit the best workable combination. The choice of men for an all-star team makes it possible to pick the best men regardless of their previous playing position. The men can change their position played with their team and fit into another notch in the all-star team to make an unbeatable combination.

First Team.
In picking this team I have taken the combination which in my way of thinking would play the best together. The men who showed the most real basketball, regardless of the team they played with. For the center position Brown of the Congregational champions seems the logical man. His jump is above the average and his all round ability gives him the advantage over the other candidates. Mark Jones runs a close second, but Brown's basket shooting ability gives him the choice.

The guard positions are hard to fill as there were developed some mighty good candidates. Cronin, Mooney, Lee, Badger and Taylor, all showing well. Cronin is my choice for the position of "sticking" guard. The forward must be pretty fast who can shake this little fellow. His performance in the Catholic-Methodist game gives him the shade over the others for his position.

The "running" guard job is also a hard one to fill. Mooney is the fastest guard in the league, his speed, proved little short of marvelous, but he lacks the weight for a guard. The choice lies between Lee and Taylor. Badger's ability is unquestioned, but he did not play in all the games. Lee's floor work gives him the shade over Taylor. With Cronin to stay back and Lee to play the floor, the opposing forward would have a hard time to get away from them for many scores.

CHILDREN WHO ARE SICKLY

Children who value their own comfort and the welfare of their country should not neglect the use of Chamberlain's Cough Syrup for Children. It is used throughout the season. They break up colds, relieve feverishness, coughing, teething, whooping, and all other troubles. It is sold by all Drug Stores, Inc. Don't accept cheap imitations. Sample without charge. Address: Adams, C. H. & Co., Inc., N. Y.

FOREIGN COUNTRIES STARTING ATHLETIC WORK FOR OLYMPICS

France Expends Government Money for College of Athletics and Other Nations Train for Events.

(SPECIAL TO THE GAZETTE.)
New York, April 9.—With plans for the collection by subscription of \$100,000 to send an American athletic team to the 1915 Olympics at Berlin, well under way, old Uncle Sam bids fair to walk off with another international field and track victory.

France, Germany and Sweden to head us off.
It will be remembered that immediately after the last Olympics at Stockholm, England, with great hue and cry set about to raise twenty thousand dollars to spend on manufacturing a team that would give the British a chance to roar. Britishers were going to start wings on the bat and develop a bunch of athletes who were to garner all the 1915 Olympic medals, honors, revolvers, and ribbons in sight. But already, according to reports from the land that has just been started from tea-drinking habits by an exhibition of Yankee baseball which also shook the crown from and a derby hat onto King George's royal plate, the Englishers have begun to start.

The wild enthusiasm which amateur field and track lovers of England and the colonies stirred up for the first few months following the Stockholm games has since slumped down until it is lukewarm. When it came time to collect passable coin of the realm and actually spend it on hiring athletic trainers who had the ability to develop the athletes, there was little doing. And it was likewise when the suggestion was made that England go out into her byways to get material. Never would it do, they argued, to have a member of the committee, a member of an athletic team that represented England, in England, if a man isn't a "gentleman," he can hardly be classed as an amateur—at least it's nearly that bad. And no England appears to be back in the same old rut.

In France it has been slightly different. Those temperamental Frenchmen started right off the bat to do some real work, and if France doesn't show up a whole lot better in 1915 it will be strange. The reports of America's Stockholm victory wasn't cold on the wires until the Frenchmen, backed by the government, had gathered in a great bunch of skeletons—or francs—and they started in to spend the money in the right way. They established a government "College of Athletics" at Rheims, and they started real athletic training from America. The French government appropriated about \$50,000 to the "College of Athletics." They went even further. Any man, officer or enlisted man, in the army, who shows promise in developing into an athlete, is "ordered" to take up his studies at Rheims. The work is going on there now in stern earnestness, and if not in 1915, then at the next Olympics, France is bound to be heard from.

Work very much similar to that being done in France, is today going on in Germany and Sweden. The German government is showing every recent amateur indoor championships held at Madison Square Garden, where three records were smashed and several more were equalled. And he it remembered that some dozen or more record men whose homes are in the West and Midwest were not among those present, and who can be counted on for points in 1915.

Even at that, however, it will never do to sit back and count the chicks just yet. That \$100,000 in the subscribed, and \$100,000 is a lot of money. Of course there are a lot of missionary societies who claim they need contributions, but there are also a lot of places where money might be worse spent.

Nautical Notes.
The Sea of Matrimony is filled with Hardships.—Lippincott's.

SPORT SNAP SHOTS

We lamp in a contemporary's sheet a little discussion of the "fielder's glove of the present day and how it has come to be not only a very important item in the success of fielding balls, but actually an indispensable factor. Time was when the glove was used mainly as a protection to the hands in chasing the fast-flying ball. Today it is more than that. It is a part of the player. It has

become a member of the player's physical composition. A player, today wouldn't undertake to catch a ball at all without the aid of his glove. A player once used to a glove would not part with it for worlds and in some cases it is actually problematic whether he could play at all with any success without his particular mitt. Up to about 1888 players used gloves only when their hands had been injured and the glove was "slipped on as a protection. Today in many cases there is little padding in the gloves and it is little if any protection from a fast speeding ball. Frequently a ball player cuts out the entire palm of his glove, leaving his hand bare to the ball. But the glove seems to take on the very spirit of its owner and to have an instinct of its own, so much has it become a part of him.

The rumor had been bruited about that the spring training trips this season had not been especially fruitful in digging up new phenomena. Most managers had noted that they couldn't find a thing to help along in the hard season approaching and that they would have to rely on whatever was left over from last year. However, such has not been entirely the case. Clark Griffith recently turned a recruit over to the Atlanta club, saying that the boy was the most promising youngster he had seen since the days of Muggsy McGraw, who says that he has discovered a wonder. Sandy Piez is the name of Jaw's find and McGraw says that since the day when the first laid eyes on this Speaker those several years ago at Little Rock, he has not seen anyone to come up to Sandy. When Muggsy first gave Speaker the once-over he offered \$5,000 for him on the spot.

Johnny Kilbane is now quite recovered from his la grippe and he's planning to become active once more in cleaning up featherweight circles. Which announcement has not as yet brought a smug smile to the faces of other featherers.
Charley White licked Joe Azevedo with one hand, the other being badly bungled in an earlier round. Which news about a man no kind of a hit with Willie Ritchie, since it is certain that in his bout with the champ Charley will use both mitts.

Charley Dooin plans to carry four catchers this season beside himself. Quite a corps of backstopping talent for one team. Four and a half catchers are more than enough for any team.

RICHARDS' FEDS LOSE TO OSBORN'S NATIONALS
The poor Feds received a bad trimming last night by the Nationals. The big league stars, under Osborn's leadership, walloped them the first two games and weathered an eleven hour rally and took the candy by thirty-nine points. The two teams battled at Miller's for the pennant in the city bowling tournament.

The Feds lost the first round by only thirty-nine pins because of the wildness of Richards and the failing of several others in his infield to grove the ball. Next round Osborn and Newman pulled a double play, aided with sterling fielding by others put the game in the locker by beating the Feds 99 points. The out-rows started to pull the game from Osborn in the last round when Richards and Crawford kicked over 186 and 190, and beat the Nationals out at this state of the game by 89 markers. Crawford was high man with 190. Summaries:

POSTPONED CONTEST TO BE FRIDAY NIGHT

Scheduled Game Between First and Second Teams of Church League to Be Staged Later.

The first and second church league teams, as picked by the Gazette, backed down last night and refused to play their scheduled game in the high school gymnasium. As the result very nearly two hundred people were turned away and robbed of the privilege of witnessing a close battle. In the morning there was truth in the statement that both teams would wage war at seven-thirty, but many of the players last evening refused to participate, and the game had to be cancelled. Friday evening has been set as the probable date for the meeting, proving the players stick to their word.

One Dog to Another.
"Do you suppose we lower animals will ever have intelligence enough to drink when we aren't thirsty?"—Lippincott's.

MY MEN TOO YOUNG," BEMOANS SHECKARD

Exception. A Young Thing is fairly certain to think she knows more than her mother about everything but the kitchen work.—Atchison Globe.

Manager Sheckard of the Cleveland team in the American Association is worrying about the age of his players. "I have too young a club as it stands," he recently declared. "The experienced players in the Association are likely to slip something over on my young players that will cause us to loose a lot of games."

Johnny Evers (left) and "Rabbit" Maranville.

Johnny Evers has already been one-half of a world-famous second base-shortstop combination, the Evers-Tinker team. It is now quite likely that he will have his name linked with a second shortstop, and that the two will stand equal with Tinker and Evers, Barry and Collins, and all the other famous force-out duos.

"Rabbit" Maranville is the young man who will shortstop opposite to Evers' second base. The Boston shortstop has been one of the stars of the National league. He is a brilliant ground coverer and a sure fielder.

Manager Sheckard of the Cleveland team in the American Association is worrying about the age of his players. "I have too young a club as it stands," he recently declared. "The experienced players in the Association are likely to slip something over on my young players that will cause us to loose a lot of games."

DOMESTIC GAS RANGES

are well made, are beautifully finished, are perfect bakers, are economical to operate.
Call at our store and see the different styles of this attractive Gas Range. Costs no more than an inferior range.

H. L. McNAMARA

If it is good hardware McNamara has it.

STANDARD Long Cut Tobacco

is a substantial, satisfying, rich tobacco—made for real men who like the honest taste of real tobacco.

Manly men cannot get satisfaction out of insipid mixtures, any more than they can make a meal off of marshmallows. You go to STANDARD to satisfy your tobacco hunger, just as you go to a beef-steak to satisfy stomach hunger.

We use pure Kentucky leaf in STANDARD. We age it three to five years—so as to make it rich, ripe and mellow—naturally sweet, fragrant and pleasing. It's got the snap and taste to it.

For over fifty years the big, two-fisted men that have "built the country" have used STANDARD because it is the one tobacco that always satisfies them. You try STANDARD for a week, and you'll always keep it on the job.

Sold everywhere in 5c packages.

Other sizes, 10c, 15c, 30c and 35c Packages.

WEATHER FORECAST.

Fair tonight and Friday. Rising temperature. Moderate variable breeze.

TORREON AND LIND.

Significance is seen in the result of the battle of Torreon and the victory of the rebels and the return to the United States of John Lind, President Wilson's personal representative to Mexico. The Christian Science Monitor handles the question in the following editorial:

"With the capture of Torreon by General Villa and the constitutional army after prolonged resistance by the federalists, it may follow that in the Mexican national capital and throughout the disturbed nation the forces hostile to President Huerta may be able to compass his voluntary retirement. For, despite the serenity and assurance of his latest message to the national legislature and notwithstanding his pecuniary resources derived from unknown and voluntary as well as known and involuntary contributions, it is understood that the likelihood that his term of office will close soon is greater than at any time in weeks. The influence of Mexican moderates is steadily east to bring it to pass; recent soundings of the United States government have seemed to indicate a less rigid attitude by President Wilson toward the federalist party and its leader; and the growing disinclination to drift long enough to give General Villa complete power also counts against Sr. Huerta with many men who long for emergence of a new different type from the leadership of the past and most loyal followed.

"Special Ambassador Lind's return to the United States is nominally accounted for on personal grounds. Whether it is wholly so may be doubted. He would hardly be departing from Mexico were conditions such that his presence as a confidential adviser of the president of the United States were specially needed. Not until there is much more evidence than is now available about Mr. Lind's instructions, methods and results, can it be said with any approach to justice just how far his mission has been successful. At least this can be said, that he is discreet, efficient and silent save to those who have a right to his facts and opinions. He has not had an easy role to fill and has found himself handicapped by limitations for which he was not to blame. Just how serviceable he has been only President Wilson knows, and he is not in a communicative mood.

"If Mr. Lind is on a furlough, as it were, he is not likely to say much about the problem he has been studying. If he is to return to Minnesota and resume the ways of a plain citizen and find satisfaction in prosaic professional life, he may unburden himself about conditions in Mexico as he sees them."

DEMAGOGUE AND MOB.

Leslies Weekly discusses "The demagogue and the mob" in its characteristic manner in the following editorial:

"A mob kills the wrong man" was flashed in a newspaper headline lately. The mob is an irresponsible, unthinking mass. It always destroys but never creates. Utter a great truth and the mob will hate you. See how it condemned Dante to exile. Encounter the dangers of the unknown world for its benefit, and the mob will declare you crazy. It ridiculed Columbus, and for discovering a new world the mob gave him prison and chains. Write a great poem to thrill human hearts with pleasure, and the mob will allow you to go hungry. The blind Homer begged bread through the streets. Invent a machine to save labor and the mob will declare its enemy. Less than hundred years ago a furious rabble smashed Thimblet's invention, the sewing machine.

Build a steamship to carry merchandise and accelerate travel and the mob will call you a fool: A mob lined the shores of the Hudson River to laugh at the maiden attempt of the "Fulton's Folly," as they called his little steamboat.

Emerson says: "A mob is a society of bodies 'voluntarily' be-reaving themselves of reason and 'traversing' it work. The mob is man voluntarily 'decended' to the nature of the beast. Its fit hour of activity is night. Its actions are insane, like 'its whole constitution. It persecutes a principle—it would whip a right. It would tar and feather 'justice by inflicting fire and outrage upon the houses 'and persons of those who have these.' Much truth in a few words.

The spirit of the mob stalks abroad in our land to-day. Every week gives a fresh victim to its ma-

lignant cry for blood. There were 48 persons killed by mobs in the United States in 1912; 64 in 1912 and 71 in 1911. Among the 48 last year was a woman and a child. Two victims were proven innocent after their death.

In 399 B. C. a demagogue appealed to the popular mob to have Socrates put to death and he was sentenced to the hemlock cup. Fourteen hundred years afterward a demagogue appealed to the popular mob and all Europe plunged into the Holy Land to kill and mangle the heathen. In the seventeenth century a demagogue appealed to the ignorance of men and twenty people were executed at Salem, Mass., within six months for witchcraft. Two thousand years ago the mob yelled "Release unto us Barabbas," and Barabbas was a murderer!

The demagogue is the leader and instigator of the mob. He appeals to the passions and ignorance of men. His stay will not be long, for he fills the land with discord, but he never fills a pay envelope.

MOST SIGNIFICANT.

It has been maintained all along by men conversant with the cause of the Bull Moose organization, that it would slowly disintegrate and return to the folds of the republican party. They based their views on this subject by the history of the various granger movements that threatened to break up the republican party in past years, by the "mugwumps" of Cleveland's two terms and even further back by the Free Soil, know nothing and other movements of the anti bellum days. Apparently their view is to be sustained. The elections held in New Jersey Tuesday show not only a gain for the republican party candidates but an overwhelming victory. If this is a sample of what may be expected next November at the polls it is most encouraging to the republican leaders. The fact that President Wilson had endorsed some of the defeated candidates only makes it more significant, a sort of hand writing on the wall affair as it were. The democrats put at the disposal of their candidates the best spell binders that could be spared from Washington and yet the republicans won with the progressives trailing a bad third in the race. It is an encouraging sign to say the least.

The effects of the election are gradually wearing off. Now is the time for everyone to perform a great "get together" and start boosting the city. It is a pretty good town to live in and does not really need much boosting to let the country at large know it. However boost for your home city and your home industries.

Even though the frost is not yet out of the ground the plans for that big Janesville fair next summer are already under way and a quiet tip that it is to be a big thing is given out by men conversant with the inside workings of the board of directors of the Park Association.

Small comfort is given the state administration in the resolutions passed at the various town meetings election day in response to Governor McGovern's request for an opinion as to the advisability of calling a special session of the legislature to regulate taxes.

This epidemic of cleaning up the city by the authorities is unquestionably a good thing and even the health officer's office will not put up any

Dr. PRICE'S CREAM BAKING POWDER

Pure—Wholesome—Reliable—Indispensable

Its fame is world-wide. Its superiority unquestioned. Its use is a protection against alum food. In buying baking powder examine the label carefully and be sure the powder is made from cream of tartar. Other kinds do not make the food healthful.

placards, warning the public that a contagious disease will be found there.

Spring house cleaning has been delayed by the cold weather and in consequence spring fishing and house cleaning will come at the same time, much to the satisfaction of the male members of the average household.

Non-partisan politics are becoming quite the fashion in Wisconsin and it would not be surprising to see a strong non-partisan state and legislative ticket in the field at the coming fall election.

Champ Clark's appeal to the American people against the Panama canal fell on deaf ears when it came to a vote and Wilson's word that the bill must pass the house went without a murmur.

With Underwood taken care of, the successor to Wilson at the next national election seems to revert back to Missouri to "Show Me" what the hound dogs can really do.

Milwaukee democracy is still wondering what the non-partisan election

and the victory over the socialists is going to do to their party organization.

Van Hise and the state university are in for a good investigation before long and it is barely possible some interesting disclosures will be made.

Some of those early robins are becoming much discouraged over the prospects of enjoying themselves in this northern climate.

Unchanged.

"That's just like Jim," said the widow, wearily, after a flapping curtain had knocked over the urn in which all that was mortal of her cremated husband had been placed and spread its contents on the floor. "Always dropping his ashes everywhere!"—Harper's Weekly.

Right and Left.

The girl who thinks no man is good enough for her may often be right, but she is more often left.—From "The Wisdom of the Foolish."

WHAT THE ASSOCIATED PRESS SERVICE MEANS

SERVICE WHICH GAZETTE OBTAINS EVERY DAY IS WORLD WIDE IN SCOPE.

A WONDERFUL SYSTEM

Charles Deane, Manager of Milwaukee Office of Big News Gathering Corporation, Tells of Methods.

In the following article, Charles Deane, manager of the Milwaukee office of the Associated Press, tells of the methods used by this great news gathering corporation in securing and handling the news of the world. The Gazette receives its daily service from the Milwaukee office by long distance telephone and consequently it is of interest to every reader of the Gazette.

The following is the article:

The Associated Press is a mutual organization of persons representing newspapers, having for its purpose the collection and distribution of the important news of the world. There are about nine hundred members.

For its more important service the Associated Press has its own leased wires which form a network across the continent from New York to Seattle, Wash. and San Diego, Cal., and from Duluth, Minn., to New Orleans, Galveston and Tampa, Fla. The total mileage of this leased wire system is approximately 28,000 miles. From various points along the trunk lines the report is sent to interior cities. Each of the members engages to contribute news of his immediate vicinity to the Associated Press. The annual revenues of The Associated Press which are derived chiefly from assessments levied upon its members, approximate three million dollars while the number of words daily received and transmitted at each of the more important offices is more than 50,000 or the equivalent of 35 columns of the average newspaper. The Associated Press is incorporated under the laws of the state of New York and has its general offices in New York city.

The officers consist of a president, first vice-president, second vice-president, secretary, assistant secretary, treasurer and fifteen directors. In addition there are advisory boards in four divisions known as eastern, central, western and southern.

The executive department which supervises details in the various divisions consists of a general manager, assistant general manager, chief of news department and chief of traffic department. Each division has a superintendent and corps of correspondents located at various important points in each division, and others who file important stories from cities or towns not having a daily newspaper. In addition to the service of this division, the Associated Press has a large number of foreign correspondents covering practically every country on the face of the earth. This corporation is not to make a profit, nor to make or declare dividends and is not to engage in the business of selling intelligence or traffic in the same. It is distinctly and essentially a news-gathering and news-distributing organization.

It is a fact that it has absolutely no interest, but in that field its interest is supreme.

It has no policies to promote nor interests to defend, is absolutely non-partisan, non-political and non-sectarian and its sole aim is to secure news and have that news transmitted to its main offices and not to its newspapers ahead of all competition.

It is a requisite of the employees of The Associated Press that they be honest, fair, just and gentlemanly to all and that in return they shall demand fair treatment, justice and respect from those with whom they deal. The transmission of editorial news upon political or partisan matters is contrary to the policy of The Associated Press.

The services are delivered to both afternoon and morning newspapers. The afternoon papers control the field of publication between the hours of 11 A. M. and 11 P. M. and the morning papers from 11 P. M. to 11 A. M. There are times however, when a very important piece of news, of world-wide importance may, to use a newspaper expression, break loose, such as the assassination of a president or a disaster such as the sinking of the Titanic. In such cases in cases similar to these The Associated Press issues a bulletin service to which both afternoon and morning papers are entitled and both morning and afternoon papers are permitted to issue extra editions at any hour day or night.

It is the purpose of The Associated Press to handle such news only as is of general interest. To make my meaning clear I might state that a story may be of such local interest as to warrant display headlines but the story may not be of any news value outside of Milwaukee and therefore would not be offered on the leased wires.

In addition to serving the best papers of all large cities with a complete leased wire report, The Associated Press serves several hundred papers with either a telegraph or telephone report of various quotas from 500 to 10,000 words or more per day. Some points served by telephone are given from fifteen minutes to two hours per day and these reports by telephone range from 100 words in fifteen minutes to telephone service to 10,000 or more in a two hour period or in periods aggregating two hours.

The different small reports, which are known as pones, must be placed to meet the requirements of the time allotted in which to telephone and where the matter is telegraphed we are compelled to keep within a prescribed limit. For instance, we serve a few small points with a so-called 50 word pone to telegraph. We are not restricted exactly to 500 words per day but the report throughout the month must not average more than 500 words daily. On days when important news is more than ordinary, we usually handle about 525 words, not more. The next day may not be as interesting from a news point of view and we may keep the number of words down to 475. On big news stories papers receiving a small pone report are permitted to order extra service by paying the extra transmission charges.

Where the telephone is used, the receiving operator is usually very rapid on the typewriter and by abbreviating considerably, is easily able to handle at the rate of 400 words per hour or more. In this way country papers with a limited space are able to get the cream of the news at much smaller cost than the papers which subscribe to the complete service and to the credit of the country newspapers it may be said that on many occasions where advertising space is the factor in the news paper, the country editor is able to make almost as good a showing as a metropolitan sheet.

In handling foreign news, the Associated Press has an arrangement

with most of the great foreign news agencies in the world. It has reciprocal relations with the Reuters of London, England, the Varas of France and the Lloyds of Germany. All of the cable matter excepting that from the Orient and Pacific Islands which usually comes via San Francisco, is handled through the New York office. Cable matter is transmitted to this country in code form, otherwise charges would be prohibitive. The man who handles a cable dispatch of perhaps fifty words, is able to sometimes write a story of four or five hundred words or more. As an instance of the value of an Associated Press franchise, I might cite a little instance which occurred during the Japanese invasion of the Philippines. The Associated Press of Port Arthur. That was a big story and cost the Associated Press several thousands of dollars, but the newspapers subscribing to our service were able to get the story in their daily edition of matter.

If the Milwaukee newspapers were compelled to rely on foreign correspondents of their own, I am afraid they would not be able to supply their readers with but a very few words abroad on account of the excessive charges entailed in collecting such news. I have heard it stated that during the Civil war, one of the Milwaukee newspapers received a dispatch from somewhere in the south where a Wisconsin regiment was stationed, giving the news of a battle, and the charges incident to this single dispatch caused the proprietors to throw up their hands in amazement at the tremendous cost. There was in the early days of the telegraph when the telegraph tolls from out of the way points were very high.

Once in a while foreign correspondents are handicapped, especially during war times when all dispatches are usually censored. I remember an instance some years ago when a big piece of news became public in connection with the Russian government. It was next to impossible at that time for the St. Petersburg correspondent to send a dispatch that would not be distasteful to the Russian government officials. In this instance it became necessary to write the story exactly opposite to the real truth but an understanding was had with the London representative to whom the story was sent, that should he receive a dispatch bearing upon a certain news matter, he should decipher it to mean exactly the opposite of what it stated. It is needless to say that the story first received by the London representative favored Russia, but when distributed to the newspapers through the Associated Press, the real story was printed. Various schemes are resorted to by correspondents of different news gathering associations to outdo each other. For instance, when the last convulse of cardinals at Rome assembled to choose a new pope, it became necessary to make an arrangement with one of the cardinals by which he could convey, by a certain sign, during a recess, the name of the pope elected, as soon as it was determined.

The newspapers in this country were able to print the news of the death of King Edward of England some hours before it became officially known by the London papers. It is possible for newspapers in Milwaukee to print and circulate editions containing the president's message, for example, a few minutes after the president begins reading the document. It is easy to understand when I inform you that all such news items are in the hands of the editors some times three and four days in advance but the papers are not permitted to publish any advance matter until released. In other words, there is nearly always a so-called string attached to important advance matter which reads, "must be held until released by wire." As soon as the flash bearing the release comes across, it is telephoned to all the afternoon papers simultaneously over a private news-paper telephone.

In order that newspaper shall not violate confidence imposed in the Associated Press by persons contributing advance matter, the by-laws provide for fines ranging from a minimum of \$5 to a maximum of \$1,000 upon persons committing violations in respect to advance matter. It is printed before the story is released. All cases of violations are handled by the board of directors. The guilty publisher is summoned and after a hearing is had, a fine is usually imposed, but have never now a fine to reach anywhere near the maximum amount.

At points like New York, Chicago, Pittsburgh, Cincinnati, Kansas City, Denver, San Francisco, St. Paul, Minneapolis and Milwaukee, are established bureaus for handling news contiguous to each city's territory. There may be stories handled by Milwaukee and filed on circuits embracing Wisconsin and Minnesota points that would not be of large news value to newspapers printer in another part of the country and while it is the policy of the Associated Press not to handle any news that is not of general interest, the make-up of the different recruits very often enables the newspapers within a certain zone to exchange news of interest to each other where the papers are not competitors. Then again, aside from the Associated Press there is a large amount of news handled by metropolitan papers by so-called special. This is distinctly separate from the Associated Press and usually consists of stories of interest only in the cities where the stories are reported or where they are circulated by the papers that use the story.

When a big story breaks it is the duty of the correspondent to file a so-called "flash." This class of news has preference over everything else. Next comes a bulletin giving a brief account of the story to which the flash refers. Other bulletins may follow in short paragraphs and as soon as obtainable additional details are handled as an add to the bulletin. When the story is covered pretty fully in the day report, a new night lead is usually handled for the morning papers and a notation written at the bottom of the lead requesting editors to take in available dry matter.

The Associated Press must necessarily be non-partisan on a political standpoint for the reason that so many papers of different political complexion are served.

The list of news not handled by this association includes editorials, suits for libel, for the infringement of copyrights or patents, damage suits against individuals, firms or corporations, diseases, unless decidedly epidemic, elopements, unless the persons have a national reputation; deaths, unless individuals have at least a state reputation, and stories of an advertising nature.

Editorials are eliminated from the report of the Associated Press for the reason that newspapers form their own editorial opinions. Occasionally, however, the editors are expressed by the different large London, England, dailies, are handled when opinion is expressed upon some matter of big moment such as the annual message of the president of the United

States or, upon some international question.

Great preparations are always made by the Associated Press for the handling of news of extraordinary events such as national political conventions and the campaigns which follow. There are numerous telegraph loops; operators are assigned to the wires and scarcely a word or syllable escapes the corps of newspaper men covering such events.

In the first place, a staff of expert stenographers is engaged to follow the proceedings from opening to closing. The stenographers work in relays, dictate their notes to rapid typewriter operators and within a very few minutes after the closing of the convention a complete verbatim report is available for use of the newspapers. Aside from this, other experts are employed in filing a bulletin report or a crisp, snappy story of the proceedings; and others write a story in a little more elaborate form and put it on the wires as rapidly as the news develops.

Of course many parts of convention proceedings are passed in advance such as nominating speeches and frequently the prayers which are delivered at each session of the convention. For pronouncing the invocation a representative of each of several denominations is usually secured, or one for each session.

With the national conventions out of the way, arrangements are usually made for a staff man or two to be at the elbow of each of the presidential candidates throughout the campaign. These correspondents sometimes travel many thousands of miles with presidential candidates or when a candidate does not travel, as was the case when McKinley was elected, they are located within easy access of the presidential candidates both day and night and not a move of any kind escaped their notice.

To emphasize or make as strong as possible my assertion that the Associated Press is non-partisan and absolutely without bias, let me state that following all national political campaigns, the general manager is in the habit of receiving letters of commendation from the managers at the various political headquarters commending the Associated Press for the absolute impartial manner of covering the news of such campaigns.

Long before the campaigns are out of the way, arrangements have been made by news editors, planning the covering of the national elections. Correspondents are assigned different states and given instructions confining them to a certain amount of space in which to cover the news of the election in their states, both from a state and nation standpoint. In some states the issues are much greater than in others. This applies particularly to New York and Ohio and more space is given these states than I might say for comparison, Wisconsin or Michigan.

The quota of words must be lived up to in order not to congest the capacity of the wires because in addition to the election returns, all the important news throughout the world must be taken care of. Usually, however, at such times as during national elections, a great deal of the less important news becomes side-tracked or handled very briefly if at all. His news is given the preference at all times.

During the Spanish-American war the Associated Press had its own staff men at various points of the United States and Cuba with their own aboard licensed tug boats bearing non-combatant flags, giving them entrance to all places of danger without molestation. The war stories were filed from the nearest point of vantage and these press dispatches, after being at times censored, were usually given the right of way next to government business.

In covering an international yacht race arrangements are made by which expert writers on this particular line of news are employed to follow up the racers, reports frequently being sent over the wires by wireless telegraph, sometimes through a carrier pigeon service.

The world's championship baseball series, in which a great deal of interest is taken by the public, are handled in such a way that the telegraph editors on all large newspapers throughout the country from coast to coast are able to follow the play almost equally as well as the crowd of spectators at the game. This is accomplished by an instantaneous accurate description given by baseball experts of every move made on the diamond. Every time a ball is pitched a flash goes throughout the country so that the man receiving the news can almost imagine himself to be witnessing the game, and before the crowds in the baseball parks who have thronged to witness the game are able to leave the park, extra editions of newspaper in every big city throughout the country are for sale on the street.

In designing outgoing news for the wire, the division manager is informed as to the class of news and how much by certain markings. Outside of a flash or a bulletin which class of news is transmitted to editors and taken without question, the different stories are numbered and scheduled, such as A, B, "Sport," and miscellaneous. A means important news but not of bulletin character; B, indicates that the news is important but not equal to class "A," and miscellaneous signifies just news of ordinary importance.

I am going to let you in on a little inside history of the Associated Press, bearing upon the faithfulness of at least one of its correspondents. It is in connection with the story of the capture of Harry K. Thaw, after he escaped from the insane asylum at Matteawan, N. Y. The whole of New England was seeking Thaw, but he had left few clues in his flight and it was impossible to tell definitely where to look for him. The situation was one of uncertainty and expectancy. Then Walter Drew of Colebrook, N. H., was heard from for the first time in two years. He had found Thaw and he took the very first opportunity to get the Boston office of the Associated Press on the long distance telephone to give the news.

Few remembered where Colebrook was; Coaticook, Quebec, was a name almost unknown to the general public and the presence of Walter Drew and the Associated Press correspondent in the remote New Hampshire town had been almost completely forgotten. He had not sent in a story in two years. Nevertheless, when his name came, he faithfully remembered his connection with the Associated Press and the obligation which lay at his door from the fact that his name was on the records in the Boston office as a "local representative." He rose to the occasion and sent in one of the best news stories of many months.

Leased wires, trained reporters, efficient operators and well equipped officers are an integral part of the Associated Press, yet altogether they had not been able to satisfy the pressing news demand of the day. Where is Harry Thaw? The police of four New England states, spurred by rewards of New York authorities, could not answer. It was left to Drew to tell the world that the fugitive had been found. The story from Colebrook and Coaticook was case where all the elaborate and efficient machinery for handling the news, wait-

ed for the almost forgotten man on outpost duty to send in his report. The prize did not drop in his lap. On the contrary, he was after the story hours before it transpired. Like most newspaper men he numbered among his friends the various city

and county officials. As in cities where news competition is keen, the country correspondent had cultivated the best news sources and it was natural that a deputy sheriff who recognized Thaw from a newspaper picture should tell his friend. And sheriff knew nothing of the reward

this is what happened. The deputy sheriff of Colebrook was a fellow passenger with Thaw on a Maine Central train and it was to him that this officer betrayed his recognition. Thaw from a newspaper picture should tell his friend. And sheriff knew nothing of the reward

offered. Left the train at Colebrook and Thaw went on. The deputy was fortunate to meet Drew soon after he reached home and told him he had seen Thaw. Drew had faith in the identification. He scented a story

Silk \$1.00 and \$1.50
Kid Gloves \$1.00, \$1.50 and \$2.00

WHAT THE ASSOCIATED PRESS SERVICE MEANS

(Continued from page 6)

and inspired the sheriff to action by pointing out that the reward would be his if he effected a capture. The officer and a P. man hired an automobile and began pursuit. It was dark and the roads were bad but they knew Thaw would have to leave the Maine Central at Beecher Falls and go across country to reach the Grand Forks so they pushed ahead. Thaw and his companion, Roger Thompson, had arrived there and had hired a liveryman to drive them to Barford, Quebec. The trail led over a wooded route in a roundabout way to the border. They had started from Colebrook after 8 p. m. on August 18, and it was past midnight when they took up the trail for Barford. The start of the train had given Thaw was gradually overcome as the motor car gained on the livery team.

Five miles out of Beecher Falls the pursuers met the livery driver returning. He said that he had become suspicious of his passengers and had refused to carry them further. He did not like the idea of riding late at night on a lonesome road with strangers who seemed peculiarly anxious to get out of the country. He told his passengers he "guessed he'd be sitting home" and they seemed glad to be rid of him. Drew and the officer picked up the trail again at a nearby farm house where they learned the fugitives bargained with a farmer to take them to the nearest town, for \$5.

The searchlights of the automobile showed fresh wheel tracks in the road ahead and Thaw and Thompson were traced to the little inn at St. Hermeville. A sleepy landlord described two late arriving guests. Making certain that the fugitives were asleep, the sheriff went in search of a constable. Drew remained on guard waiting to pounce the story when ripe. Thaw was arrested at six o'clock on the morning of August 19. Mr. Drew began to search for a long distance telephone. It was nearly three hours before any connection could be gotten there, but a brief bulletin was given to the Boston office of the Associated Press at 8:55 a. m. hearing the possibility of getting absolute confirmation, the Boston office while taking the story from Mr. Drew, had set up another wire to Coaticook, Canada, where Thaw was taken to jail and Drew's report was not only confirmed, but interviews were obtained from Coaticook authorities including the chief of police.

The Associated Press arranged for extra wires for a detailed story from Correspondent Drew and the police authorities, and Mr. Drew went about to send in a complete story of the capture and other details long before the first bulletin was sent out by any opposition service, and thus was able to supply its patrons throughout the United States and even across the water.

The first bulletin sent out by any opposition service was dated Montreal and merely stated that it was reported that Thaw had been arrested somewhere in the south of the province of Quebec, thus showing the superiority in one instance at least of one press association over another.

And with this instance before you, I will conclude my talk with this brief summary of the duties and the aims of the Associated Press—that of always getting ALL the news of general interest from ALL the world in the very best and most authentic form, at the earliest possible moment—in summary and present to each of you the history of the important happenings of the world every minute of the day and night.

Little Benny's Note Book.

Ware in the name of grand and petty larceny is my latch key, sed pop after supper last night. How should I sed ma, you probably left it in the front door again. Agen, sed pop, hark to that, agen, how good I leave it in the front door when I've never left it in the front door in my life, any man that leaves his latch key in the front door deserves to be robbed and then get a slam over the head for the burglar for good measure, the last time I saw that key it was awn my bewro were I put it, and now its bin moved, deebribly moved, and wen I dare to inkwire about it Im informed that I properly left it in the front door, and not only left it there, but left it there agen.

I shoold say I didnt, sed pop, any man with no moar sense than to leave his key in the front door awt to be given a dinner of approbation by the Amalgamated Ord'r of Sneek Theeves, any man braceless enuff to leave his key in the front door, wood have his bank roll of the parlor window a string, with a sine awn it say, ing, Please dont touch.

O, awi rite, for goodness sake, I believe you, sed ma, And jest then the front bell rang and I went down and who was it, but a pleeceman, saying, Is yure farthir in. I want to give him a key I fownd in the front door about 3 o'clock this morning.

Hay, pop, I kalled up stares, heers a pleeceman with a key he fownd in the front door.

Wats that, wats that, sed pop, kumming to the top of the stares, wats that sot to do with me.

I fownd it in the front door about 3 o'clock this morning, sed the pleeceman, kumming to the bottom of the stares and holding it out.

I herd you, sed pop, well wat of it, its not my key.

Well I fownd it in yure doar, sed the pleeceman.

I dont care if you fownd it erround my neck, its not my key, sed pop, I never left a key in the front doar in my life and never intend to do.

Well its funny wat I sed, sed pop, in yure doar then sed the pleeceman.

Aw! rite, then laff, sed pop, persnally, I fale to see anything funny in sum intorkeyayed stranger leaving a strange and properly derty key in my doar.

Well waitil I do with it, sed the pleeceman.

Take it away and drown it, sed pop. And he went back in the setting room and the pleeceman went out agen, saying, Its a darn funny thing, its a darn funny thing.

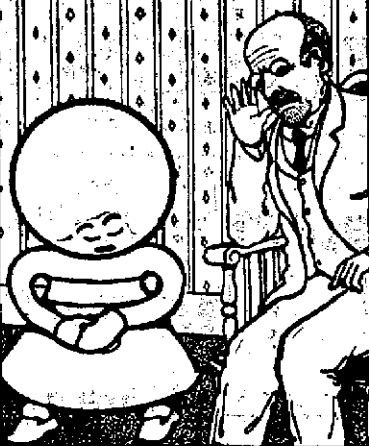

Health Tip.

Locomotor ataxia is a chronic, progressive disease of the nervous system. It affects the spinal cord particularly. On this account it interferes with muscular co-ordination. It causes the gait of the patient to be irregular and uncertain.

Best Rest to Be Had. The rest which does us all good, and enables us to do our work well, is the rest of the heart—the Sabbath of the soul.—James Freeman Clark.

GOOPS

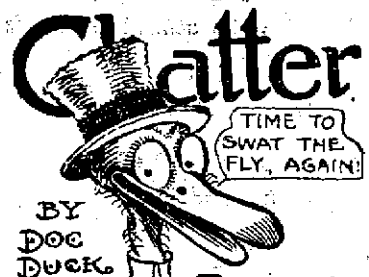

By GELETT BURGESS

May Hawley

I haven't heard May Hawley speak distinctly for at least a week! She always mumbles, just as though Her little mouth were filled with dough. I don't know what she says, but I know she's a Goop—and you know why!

Don't Be A Goop!

Good deeds never die, but lots of them seem to go into a trance. The fellow who cuts off his nose to spite his face can't very well blow about it.

APRIL 9 This evening is favorable to travel, romance and signing papers. If this is your birthday, some changes seem indicated for your next year, and to your advantage.

No feller wuz ever so pop'lar at home that he didn't have 't go out o' town for his fame. I've never met a big fine lookin' athletic feller that didn't either have a soft snap or wuz lookin' fer one.

GEE-THIS IS A DEAD TOWN I GUESS I'LL START SOMETHING!

AND HE DID—

Milk Profits Would you be interested in knowing the way to better milk? The secret—good pure milk and keep it pure.

Best Rest to Be Had. The rest which does us all good, and enables us to do our work well, is the rest of the heart—the Sabbath of the soul.—James Freeman Clark.

MOTHER! MOTHER! YOUR CROSS, SICK CHILD NEEDS ONLY "CALIFORNIA SYRUP OF FIGS."

If fretful, feverish, constipated, bilious or tongue coated give "Fruit Laxative" at once.

No matter what ails your child a laxative should be the first treatment given.

Look at the tongue, mother! If coated, it is a sure sign your "little one's" stomach, liver and bowels need a gentle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in just a few hours all the clogged-up, constipated waste, sour bile and undigested food

will gently move out of the bowels and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless fruit laxative. Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a 50 cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

On the Spur of the Moment

When a feller's in love, it's a dandy old world; There is joy and content in the breeze. All his troubles and woes to the four winds are hurled, And the birds sweetly chirp in the trees. When she lays her blonde head on a feller's broad chest, And she says that she loves him for fair, That he is her Lochinvar out of the west, Then he feels like a quadrillionaire.

When a feller's in love, he will talk like a nut, And he writes stuff that ain't fit to be printed. He will walk down the street with an important strut, Just as though he could buy out a mint. He will put on his collar and necktie by gum, Seven days in the week and he'll primp, And he'll put his old savings account on the bum, And he'll act like a regular simp.

When a feller's in love, he's a true candidate For the insane asylum, no doubt. There is never a cure for the dippy love state. It has just got to wear itself out. He is looney, he's batty, heretofore of his sense. He is as shy of gray matter above. As the tomcat who yells on a back alley fence. Yes he is, when a feller's in love.

Musings of a Pessimist. Most people are optimistic, but pessimists are always looking down in the mouth.

One of the chief advantages of being rich is that a person does not have to pay his bills so promptly. Only the poor have to pay up on time.

The bustle is coming into style again, they tell us. No matter what has gone before, the bustle will always be behind.

One way to make a living is to go to work—that is, by the bye, about the hardest way.

No girl's heart is so hard that a diamond will not make an impression on it.

There is an editor in Michigan who thinks that \$50,000 is half a million. Every time he handles a story deal, ing with the figures 50,000 he headlines it "Half a Million." Some people laugh at him, but he gets along all right. We know a lot of good editors who don't know how to count more than \$50.

Men's clothing has been so simplified that they can now dress in a hurry and have time to hook up their wives.

Church collections in some places are taken in open baskets on long

poles, with everybody in the row and the man at the end of the pole looking. It isn't as easy to get by with a bear check or an iron washer as it used to be.

Uncle Abner. Edison says he wants to invent a fuel that is cheaper than coal, even now.

There was never a time in the history of the world when some man wasn't telling some other man how to live right.

The good book says a horse is a vain thing for safety, but even at that a horse has got it all over a bath room gas heater.

Lem Higgins' son writes home that his college course is a great success. He has already met three actors and has learned to dance the Texas Tommy.

When a man writes tombstone poetry he writes poetry that endures.

GRANDMA SEZ— "My advice few wimmin' when they're buyin' spring lamb is tew ask which spring."

ITS THE REAL TOBACCO CHEW AND THE BIGGEST NUGGET IVE STRUCK, THANKS JUDGE

THE GOOD JUDGE AND THE MINER

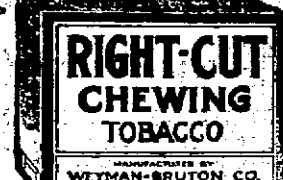

OF course it's different! Why, "Right-Cut" gives you satisfaction and comfort like you never knew there could be in tobacco.

It's the Real Tobacco Chew. Pure, rich, sappy, mellow tobacco—seasoned and sweetened just enough.

Different in cut, too. A ready chew—short-shred, cut fine. The flavor comes along easy and steady-like. A fine thing that—more convenient, no bulky wad in your cheek.

The Real Tobacco Chew 10 Cents a Pouch

ASK your dealer today. If he doesn't sell "Right-Cut," send us 10 cents in stamps. We'll send you a pouch.

WEYMAN-BRUTON COMPANY 50 Union Square, New York

Amusements

"The Lady Detective" is a new and sparkling comedy of the very best quality. It will be presented by the Marion-Woods Co. at the Myers Theatre during their engagement here, which is scheduled for eight days, starting Sunday, April 12. The opening play will be "Kentucky Sue," a romance of the Kentucky mountains. While the heart interest is intensely strong, the comedy element predominates. Miss Ouida Marion, who will be seen in the character of Sue, gives a most pleasing interpretation of the part. Vaudeville specialties of a refined nature will be introduced between acts.

THE APOLLO. The management presents for the balance of the week an attraction of unusual merit in Gus Sun's episode of

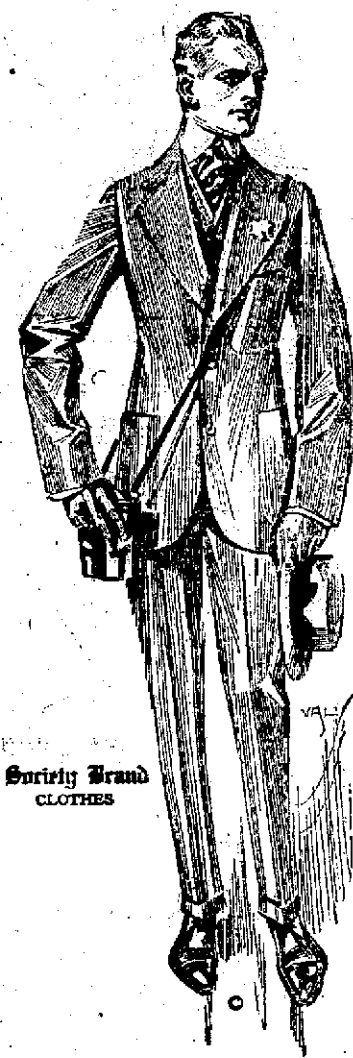

the holidays told in song and story. Christmas Frolics. A bevy of pretty girls in snappy costumes make up an evening's entertainment of fun and song. The troupe carry special scenery and have a collection of catchy songs. There are three scenes to the playlet and every one has been calling for encores. It is a little musical comedy that is bound to make a success here.

Two other good acts are offered, making up an unusually good bill. Beginning next Monday the Apollo announces that they will change to the popular Mutual movies for their motion pictures. The Mutual Movies have been popularized so extensively all over the country that the management in furtherance of his policy of giving the best, has decided to make the change.

If you would spend your money judiciously—keep your eyes on the bargains the merchants are offering in these columns.

What precious stone?

The Golden Eagle

GIVE EASTER CLOTHES IMMEDIATE ATTENTION

You'll find that we've a greater claim to your attention than any others, SPRING SUITS

LODGE URGES REPEAL OF TOLL EXEMPTIONS

(Continued from page one)

is no peril to any one, peculiarly out of place.

Reviews Canal History.
In opening his address Senator Lodge rehearsed the history of the canal negotiations previous to the "blunder of the Clayton-Bulwer treaty," which he said had committed the United States to obligations pregnant with future trouble. He told of the various steps by which the Hay-Pauncefote treaty had been reached and of the later adoption of the exemption clause in the regulations.

"I am of the opinion," he said, "that under the terms of the treaty we have a legal right to exempt our own vessels no matter what trade they are engaged in. In my view, if we admit that we have not the legal right to exempt from tolls vessels engaged in foreign trade we have no right to exempt or refuse to collect tolls from vessels of the United States engaged in any trade. I think, however, that we have the legal right to exempt or refuse to collect tolls from all vessels of the United States."

After reciting his own connection with the treaty negotiations, Senator Lodge continued:

"I took the view then that under the terms of the treaty of November 18, 1901, the United States was at liberty to exempt its own vessels of commerce from the payment of tolls if it saw fit to do so, and I voted against the barred amendment, which made this right explicit, because I thought it needless.

Equality to All Users.
"It is clear, that the United States

has rightfully, and in accordance with the terms of the treaty, built the canal through territory which is its own for canal purposes, although the ultimate sovereignty remains with the Republic of Panama, and the treaty accords to the United States all rights incident to building the canal. It is also clear that in undertaking the canal on these terms the United States did so with the purpose of excluding all foreign control beyond the stipulation to preserve the general principle of neutralization and equality of terms to all users of the canal.

"Those who deny the right of the United States to exempt its own vessels rest their case on the language of Article 3, which declares: 'The canal shall be free and open to the vessels of commerce and of war of all nations observing these rules, on terms of entire equality—' and more particularly upon the proposition that the words 'all nations' must include the United States. I freely admit that this is a fairly arguable point, but it does not seem to me that the words 'all nations' in this connection necessarily include the United States."

Edgerton, April 9.—Roger Mooney is home for a week's vacation from St. Louis, where he is attending St. Viator's College.

H. R. Martin went to Montana today, where he expects to remain for a month on business.

Mr. and Mrs. Albert Metz and child of Rockford came last evening to be the guest of Mrs. M. E. Conway for a few days.

Mrs. Joseph Johnson visited relatives in Stoughton today.

Miss Mamie Wright of River Falls is the guest of Mrs. J. A. Jensen for a few days.

Various Thermometers in Use.
English-speaking peoples use a thermometer invented by Fahrenheit, a German; many Germans and Scandinavians use one invented by Reaumur, a Frenchman; while the French and most of the other Europeans of the continent use the centigrade thermometer invented by a Swede.

BUTTER MARKET IS FIRM AT LAST WEEK'S LOW MARK
[SPECIAL TO THE GAZETTE.]
Elgin, April 8.—The butter market is firm with the price at 24 1/2, last week's lowest figure.

Soda Relieves Indigestion or Acid Stomach
Few stomach sufferers know that indigestion, Sourness and Gases are not caused by a lack of digestive juices, but result always from acidity, meaning there is an excess of hydrochloric acid in the stomach which retards digestion and promotes food fermentation. Everything eaten sores in the stomach like garbage sores in a can, forming acid fluids and gases which inflame the stomach like a toy balloon. Then we get a heavy, lumpy feeling in the chest, we belch gas and eructate food or have heartburn, water-brash, bloating and nausea.
A well-known authority states that a 10 grain Sodagen tablet taken any time, followed by a tumbler of water instantly neutralizes these stomach acids; stops fermentation, absorbs the gases and sweetens the entire digestive tract. He says any pharmacist can supply a package of 10 grain Sodagen tablets as they are constantly prescribed for stomach acidity because of their harmlessness to the digestive organs, being composed of Sodium Chloride, Calcium Carbonate and Magnesia U. S. P.

Evansville News!

Evansville, April 9.—The Yeomen of America will have one of their good time dances Thursday night at the Woodman hall. This will be an open meeting. Dr. Mock of Milwaukee will be the evening's speaker. Everyone is cordially invited.

The girls of the high school enjoyed a dance and party at Fisher's hall Tuesday night. A very pleasant time resulted.

JEWEL BRAID PINS, BARRETTES, TOP COMBS, BACK COMBS, BANDEAUS, AIGRETTES, ETC. Big assortment to choose from.

WOMAN'S PAGE

The Evening Chit-Chat

BY RUTH CAMERON

ALONENESS.

"ABOUT her were the bustle and clangor of busy Centre Street. People hurrying upon a thousand errands, each intent upon his own business, under the last wrapping each soul alone in a crowded world. And no one knew of his brother's high adventure. Men walked brushing elbows with angels, and unaware."—Henry Sydney Harrison.

Haven't you often had the feeling Mr. Harrison so cleverly describes in that paragraph? Haven't you often looked about you in a crowd and suddenly been impressed with the fact that each of these creatures against whom you are jostling so unconcernedly, and who mean so little to you, means everything in the world to himself?

Each to himself is just as significant and important and real as you are to yourself.

Each being in that conglomerate crowd is the center of a little universe of friends, relatives, loves, hates, employments, subordinates, acquaintances, hopes, and fears, triumphs and disappointments. Each has a home of one sort or another, of which he is, to himself at least, the center. And each individual in that mass is just as wrapped up in himself and his relationships as you are in yourself and your relationships.

You touch elbows with your next-door neighbor, and yet you two are actually as far apart as the planet Mars and the earth. The isolation of souls is a wonderful and solemn thought that sometimes takes possession of me.

No matter in what close physical and intellectual intimacy with other human beings we may live, after all, the soul, the core of us, is remote. Souls are like planets. Each moves in its own orbit, and under normal conditions no other planet can possibly come high it.

It is wonderful how closely great love can bring two individuals together, and yet it is not even more remarkable how far apart it still leaves them. By social converse, by intimacies, by confidences, by herding together, in wedlock, in families, in clubs and society, we hide our aloneness from ourselves. And yet it still exists. And now and then in some rare moment of reflection and analysis it rises to confront us. "How lonely is a rather appalling thought, isn't it?"—somebody forgot it,—till the next time.

balance for rig when A bought it. I wish you would kindly advise me if they can do this as there is a heavy mortgage on farm and also small sum on homestead. Can they touch homestead at all or any time?"

I do not think the company can touch the homestead, but as to the rest I must advise you to consult a good lawyer.

Dear Mrs. Thompson: Do you think it is right for a Catholic girl to go to parties in Lent?

HIGH SCHOOL GIRL.

No, my dear.

Dear Mrs. Thompson: (1) What should a girl's answer be when a boy says he loves you? (2) Is the slit skirt in style now? If so, how big a slit must be worn? (3) Last summer I went with a boy friend and now he hardly speaks to me. He now goes with a friend of mine and I would like to have your advice what to do.

(4) How can you make yourself attractive to boys?

(5) Should you wink back if a boy winks at you on the street?

(6) How can you make a boy know that you think a lot of him without telling him so?

(7) If he doesn't ask her to marry him at the same time, she should simply laugh and tell him to stop being silly.

(8) Skirts with a slit of six inches or less are being worn.

(9) Why bother about him at all if he is tired of you and prefers some other girl? You can do without him, can't you? (4) By not being too anxious to have them think you attractive. Boys always know when a girl is crazy about them. Be modest, sweet, good-humored and neat. Then the right sort of boy will like you. (5) It would be very unadvisable.

(6) Wait until he shows you that he wants to know very much. Then, if he is the right sort of boy, you can tell him you like him pretty well.

(7) Wait until he shows you that he wants to know very much. Then, if he is the right sort of boy, you can tell him you like him pretty well.

(8) Skirts with a slit of six inches or less are being worn.

Women Worth While

COUNTRESS ERDODY.

By Selene Armstrong Harmon.

"America" asks the little Countess Erdody with a sudden lift of her delicate brows, her face lighting with enthusiasm. "Why, it is the most wonderful country of all."

What I like best about it is the chivalry of American men toward other women. In this country I observe that mothers say to their

"Rise and give your sister that chair as a gentleman should. Thus, before a boy understands what a gentleman really is, he learns that it would be desirable to become one. It is a great thing, this, teaching boys from their babyhood to be chivalrous toward women."

"Next, what I like best about your great America is the freedom of its

women. In the old countries a girl born in aristocracy is almost a prisoner. My father and mother died when I was a child. I was placed in a convent at seven years of age and for seven years I went not once upon the streets. For twelve years in all I stayed in a convent and played with other girls. Think of that! Often when a girl of nineteen comes out of a convent in Austria-Hungary she is totally ignorant of life. She knows no more about men than about horses. It is any wonder that very often she makes an unhappy and undesirable marriage? And do you wonder that I love your America, I who was kept in a convent for twelve years?"

The Countess Erdody likes America so well that this is her fourth visit here and her second season in Washington. Not long ago a fancy costume ball given in Washington by the Viscountess d'Arny, wife of the naval attaché of the French embassy, the Countess Erdody appeared in the native costume of Croatia, one of the southern provinces of Austria-Hungary. It was in Croatia that the countess was born, and she has the dark, piquant beauty and the imaginative temperament of the women of her race.

"The Croats," she says, "are a Slav people and speak the Slavonic tongue. They are intensely idealistic. For instance, if a little Croatian has many sisters of her own, she always chooses from among her playmates an 'ideal' sister. This 'ideal' sister, when both girls are grown and married, usually stands as godmother to the children of the women who in childhood choose her for a sister. Every Croatian is loyal. I think as well as idealistic. Friendship, to the Croatian, is a sacred thing."

The Countess Erdody is a born actress. Without at all meaning to do so, she expresses the dramatic in every book, phrase and gesture. One does not talk with her long without gaining the impression that it is her dramatic temperament which gives to a woman so diminutive as she a personality that is so vivid. And one learns without surprise that her interest centers in drama and the stage. In Vienna she used to take part in many private theatricals with which society folk there amused themselves. Recently she appeared in Washington in the tableaux which Madame Dumba, wife of the Austrian ambassador, and Mrs. George Vanderbilt, organized for charity. Countess Erdody's friends have often urged her, in view of her exceptional talent, to go on the stage—a step which she is seriously considering.

Recently she appeared in Washington in the tableaux which Madame Dumba, wife of the Austrian ambassador, and Mrs. George Vanderbilt, organized for charity. Countess Erdody's friends have often urged her, in view of her exceptional talent, to go on the stage—a step which she is seriously considering.

The Countess Erdody is a born actress. Without at all meaning to do so, she expresses the dramatic in every book, phrase and gesture. One does not talk with her long without gaining the impression that it is her dramatic temperament which gives to a woman so diminutive as she a personality that is so vivid. And one learns without surprise that her interest centers in drama and the stage. In Vienna she used to take part in many private theatricals with which society folk there amused themselves. BACK FROM BRAZIL WITH INTERESTING COMMENTS ON LIFE

GEORGE A. SCARCLIFF TELLS OF
SOUTH AMERICAN MINING
PROJECTS.

PORTUGAL DOMINATES

Their Customs and Characteristics
Are Interesting to American
Travelers.

One of the Jamesville boys who has been working successfully in foreign fields, has just returned and offers an interesting account of conditions in Brazil. On December 11, 1912, George A. Scarcliff left Jamesville to take up his duties in Brazil as civil engineer for an iron mining company in which many Wisconsin men are interested. Mr. Scarcliff says of his experiences: "I left Jamesville just two weeks before Christmas in 1912. I was on ship board during the celebration of Christmas, and it was the most enthusiastic affair in which I ever participated. Everybody was thinking of home, but being so far away, we entered into the spirit of the holiday with more zest to make up for the joys were missing.

"My work took me far into the interior, a town of 8,000 population, two days' journey from the nearest railway. This town, called 'Itabora de Matto Dentro' is an old Portuguese town with a civilization dating back to the fifteenth century. It was settled before the Pilgrims landed at Plymouth. The inhabitants of the place at the present time are unprogressive, and mix freely with the Negroes and Indians, many of them intermarrying for so many generations back that those of today have lost most of the characteristics of their Portuguese ancestors. They have, however, retained their old religion, all being devout Catholics. They cele-

brate from fifty to one hundred feast days each year, and cannot be induced to work on any of these days. The celebration of Christmas is the most important. The natives call it 'Natal' and all cooperate to make it a day of all days during the year. The next feast day of importance is the feast of San Joao or St. John as we would call it. Among the peculiar customs that prevail in this little city is that of circulating hand bills on the death of any inhabitant. These bills are in the nature of an invitation to the populace to come to the funeral. The fact that this town is connected with the outside world only by means of rough mule paths makes it almost inaccessible to travelers. Until this mining project was started by the Americans and the English there were few foreigners who ever went there. At the present time some of the greatest mines in the world are being operated there. The great difficulty is in transporting the metals to Rio de Janeiro for export. The company in whose employ I was, projected a railroad under the management of E. C. Harder, one of the leading geologists of America, which road was to run from Victoria to Itabora. This would give the company a through route to the coast, but at the present time, the work on this road has been held up by Brazilian legislation. The iron mines held by the company are the greatest in the world, but unless this railroad project is allowed to go through, it will be difficult to operate them successfully. Labor is cheap, the average wage being equivalent to about thirty cents in our money. We paid our men about six to eight cents a day, and on that wage they were able to save considerable. Their living expenses consist mainly of black beans and fruit. Living costs more for the American, however, down there than it does in the states because everything he needs has to be imported. Potatoes and meat have to be shipped in. The standard of wages for professional services is about three times what it is here, due to the hardships that one has to undergo.

"My work consisted in establishing boundary lines for the company's properties and making topographical maps and surveys of the districts where the mineral deposits were heaviest. I had a house of my own, and two native servants, but my association was al-

together with natives. For that reason, it was necessary for me to learn to speak their language. Ordinarily these men are peaceful, but when they do get into trouble, a murder is the general result.

"On August 4, 1913, I was taken ill and went to Morro Velho, where an English Gold Mining Company runs a hospital under the direction of English surgeons. This was a town of about 15,000 inhabitants, with a few English speaking people among them. It was built up mainly by the English company. The mines here are among the richest in the world. The deepest gold mine and the second deepest mine in the world is operated by this company. This is called the St. John del Ray mine and is controlled mainly by English capital.

"When I stopped at Rio de Janeiro on my way home, they were having their first lenten carnival. It is the most gorgeous affair of this nature anywhere. Rio de Janeiro is a second Paris, with miles of the most wonderful boulevards I have ever seen. There is no speed limit either. At Rio federal lotteries are conducted every day. Just before Christmas a lottery is conducted each year which involves a sum equal to about \$300,000 in our money. Every second Sunday a lottery of \$48,000 is conducted. The price of tickets for the big lotteries is fifteen dollars and in these the speculator stands a chance of about ten to one of getting his money back. Rio is an up-to-date and progressive place having all the attractions of our own New York, but with greater freedom expressed.

"It was necessary for me to secure a passport to leave the place as there was trouble in the city arising from elections. The possibilities of making money are very good, but the conditions of the place are not such as would tempt many. Any one who goes there will have a hard row to hoe, and many sacrifices to make. United States looks pretty good when you get back.

Soured on Afternoon Tea.
"Then you don't like these afternoon teas?" "Too rough on the nerves. Here's the situation: I gotta hold a sandwich in my mouth, a plate of cake in one hand, a cup of tea in the other, and nothing to set anything on but a grand piano."

TARIFF DOES NOT SATISFY FARMERS

Rural Agriculture is Getting "Hot End of the Poker." Under New Freedom.

(By Winfield Jones.)
Washington, D. C., April 9.—How is the American farmer faring under the Wilson administration and the democratic tariff?
To judge from editorial expressions in the leading farm journals of the country, your correspondent has recently had a session with the farmer, the farmer is getting the "hot end of the poker" under the new freedom and the Wilson dispensation.

"The enactment of American farm products against the democratic tariff bill that lowers the price of practically every farm product, without any material decrease in the price paid by the consumer, is indicated in the following editorial expression in the Up-To-Date Farming, an able conducted farm journal of Indianapolis, and a typical publication for farmers: 'The conditions bring to the front another set of farmers to get together in a nation-wide organization so they can demand and compel the repeal of the tariff law, as it injuriously affects agriculture. We do not want to see our farmers' organization should go into politics, but farmers must be heard in the councils of the nation and they must put themselves in a position to back up their own farm products. The tariff is a whole country. While out is supposed to be a government of the people, by the people, for the people, we feel it will never be a gain until the farmers are organized to back up and then with their ability to co-operate, make their united demands for the repeal of bad laws and the enactment of good ones for agriculture and the farmer must be good for all the people.'

The conclusion is just and true, with the additional stipulation that any law that is good for the farmers and the wage earners as we must be good for all the people, says the American Economist, commenting on this. It is upon the millions of wage and salary earners in this country and their families that the American farmer must chiefly depend for their market. Wherefore we would amend the suggestion of Up-To-Date Farming and urge that the farmers do go into politics to compel the repeal of the enactment of a protective tariff law. It is every man's privilege and duty to go into politics to improve his own condition of the country as a whole.

The Kampasas, Texas, Blade, commenting on the way the farmers are "getting it in the neck" by the democratic tariff law, says that the agriculturalists are selling their products in competition with the farmers of all the countries of the world, and it must be remembered that in all the foreign countries farm labor costs less than in this country and in nearly all the foreign countries land costs more than in this country. It should also be remembered that in all the foreign countries farm labor costs less than in this country and in nearly all the foreign countries land costs more than in this country. It should also be remembered that in all the foreign countries farm labor costs less than in this country and in nearly all the foreign countries land costs more than in this country.

The way the new tariff law is working farmers get less for what they sell than they got before the law was enacted and there has been no reduction in the price of their products. The farmer gets the worst of it both a game and a con.

FIRST UP-THE-RIVER PICNIC HELD TODAY

Twelve High School Girls Walked Three Miles This Morning To Fifield Cottage and Enjoyed the Day.

Rather than postpone a picnic up the river, which had already been planned for because it was too chilly to ride in a launch, twelve high school girls faced the brave winds, and cold weather, and walked the distance of a little over three miles this morning to the Fifield cottage, where the first outdoor-up-the-river picnic of the season was held.

The pedestrians took their time, starting about eleven o'clock, and enjoyed the trip up the road on the east side of the river, immensely. By the time they arrived at the cottage, they were ready to partake of the delicious luncheon which had been prepared by them. The cottage was made warm by the girls, and the wieners and cups of hot chocolate heated over the coals. The remainder of the picnic consisted of olives, potato chips, chocolate cookies, doughnuts and toasted marshmallows.

Following the luncheon the girls formed a band and walked to the infirm asylum, where they made a brief visit. Upon their return they were met by their boy friends with autos and were brought to their homes. The picnic-makers enjoyed the day greatly, even though they were tired from the effects of hard walking.

Those who made a trip were Sybil and Caroline Richardson; Dorothy Korst; Marlen Matheson; Harriet Carl; Florence Nuzum; Phyllis Kelly; Manilla and Marguerite Powers; Josephine Ellis; Elizabeth Cordell and Frances Fifield.

CLAIMS DISTURBANCE OVER LICENSE ISSUE WAS NOT AS REPORTED

A Milton Junction resident in a letter to the Gazette, states that the story in regard to the disturbance at the Junction on Tuesday which involved an altercation between the license and no-license forces, was not correct as to several particulars. He explains that some of Milton Junction residents being opposed to having a petition calling for a vote on the license question in a no-license town, attacked persons who were distributing the temperance dodger, tearing up the dodgers and striking the distributors. The dodgers were headed "We Want License." Instead of "These are the booze-fighters who want the Junction to go wet," as was reported, and contained the names of the petitioners. "Contrary to the statement published the temperance people were not the 'boozers' in the violence which occurred Tuesday," he explains, "only in self-protection," says the letter received at the Gazette office.

"His Object in Writing.
Reserved Parson (doing an odd job with the church fence). "You appear to be watching me very closely, boy. Do you take an interest in carpentry?" Boy—"No." Rev. P.—"Then what are you waiting for?" Boy—"I'm waitin' to hear wot a parson says when 'e 'its 'is fumb wot the ammer." Punch.

CAINVILLE CENTER

Cainville Center, April 8.—Word has been received by relatives of the death of George Genouat at his home in Kansas. Mr. Genouat and family were former residents of West Magnolia and moved to Kansas this spring. He was in poor health and was in no hopes the change would be beneficial.

Mr. and Mrs. Bert Clifford of Iowa are visiting relatives and friends. They were both Magnolia people and moved to Iowa eighteen years ago. Their many friends here are giving them a cordial greeting.

The sympathy of the community is extended to the McGuiness in their bereavement.

The Helpers' Union at Mrs. W. B. Andrews' Tuesday, was largely attended; \$13.25 was taken in for dinner.

It is finally decided that the A. C. camp meeting will be held at Magnolia in June.

PORTER

Porter, April 8.—New officers were elected to many of the offices at the election in Porter township on Tuesday. W. B. Porter was defeated for chairman by C. D. McCarthy, who is a new man for that position.

Ed. Fox won over D. E. Sayre for supervisor, while Fred Miller defeated Thos. E. Ford and retains his position for another year.

C. C. Hoague beat B. W. Towns by a landslide majority for the office of town clerk.

James Norwin was re-elected treasurer over F. G. Fessenden. The closest contest was for the office of assessor, Lloyd Viney and Chas. Raymond both got the same number of votes, but Raymond won the draw and retains his office for another year.

There seems to be a growing sentiment in every election for the election of new men, not only in town elections but county and state as well, and many political heads will drop at the next state election.

NORTH CENTER

North Center, April 8.—A few farmers started to plow here yesterday, but owing to the snow storm and freezing postponed it today.

Richard Jewell will work the Wm. Churchill farm this year.

A new car index has been placed in the school here.

Mary and Helen Barrett visited at the homes of Mrs. Ed Fox and Mrs. James Murphy Sunday afternoon.

The teacher and schoolmates of Mrs. Lena Schmitt are glad to see her at school, after a few weeks' sickness.

Mr. and Mrs. Chas. Kopke are visiting relatives in Jamesville today.

Mrs. Ed Churchill spent last Saturday night with relatives in Jamesville.

Wm. Ford and family, James Reilly and family were guests at the home of Mike Reilly Sunday.

John Cullen and sister Sarah were visitors at Laurence Barrett's Monday.

Miss Edna Barrett returned home Monday, after spending a few days with her cousin, Miss Sarah Cullen.

Miss Frances Byrns was at the school Monday.

James Murphy and son Joseph were callers in this vicinity one day this week.

Mrs. Otto Kersten, Sr., and daughter Anna were guests at A. Scholtz's Tuesday.

EMERALD GROVE

Emerald Grove, April 8.—Preparatory services will be held at the parsonage next Saturday at 2 p. m. Easter services will be held at the church next Sunday morning. The subject is, "The Risen Christ." The quarterly communion will be observed with the reception of new members. Also an opportunity for baptism. The C. E. meeting at 7 o'clock in the evening. The Easter program commences at 8 o'clock. Offerings will be taken up for benevolent work. Come and all will be helped.

Mrs. H. Walther has been spending a few days with relatives in Rockford.

Mrs. William Boss, Jr., and son, Roscoe, of Blue Mounds, Wis., is visiting her parents, Mr. and Mrs. C. D. Fitch.

Selah Chambers and family have moved to Spring Grove, Ill.

Will and Oscar Hanson are owners of new motorcycles.

WEST CENTER

West Center, April 8.—Mrs. Wats-track and son, Charles, spent Sunday afternoon with Mr. and Mrs. William Henning in Footville. Mr. Henning is in very poor health.

Several from here were in Jamesville Saturday.

Mrs. Farber, who has been very sick with stomach trouble, is some better.

Charles Horkenhagen of Hanover is doing some moving for W. O. Howell. If it were not for the song of the birds, we wouldn't know this morning that it is spring, as the ground is frozen and sprinkled with snow.

The appropriations made for the year at the town meeting aggregate about \$3,000, \$500 of which is state highway money.

Mr. and Mrs. William Harnack spent Sunday with August Koffin and family. Mr. Koffin is still in very poor health.

Mr. and Mrs. Harry Ballow of Footville spent Sunday at the home of their daughter, Mrs. James Adee.

Mrs. Roy Silverborn is spending a few days with her parents, Mr. and Mrs. Behling, in Hanover.

ELECTION OF OFFICERS AT MILTON JUNCTION

(SPECIAL TO THE GAZETTE.)
Milton Junction, April 9.—The annual spring election was held Tuesday. The following officers were elected:

Chairman: W. P. Marquart.
Supervisors: W. P. McBride, R. S. Thompson.
Clerk: D. L. Bottrell.
Treasurer: M. A. Richardson.
Assessor: H. E. Schraeder.
Justice of Peace: E. M. Holston.
F. L. Miles.
Constable: G. W. Maltress, C. R. Hill, C. Roby.

Harry Hinkley was a business caller at Madison today.

Mrs. J. M. Moody of Middleton was in town Tuesday.

Miss Marie Scherer of Milwaukee is a guest of Mrs. J. Strassberg.

Miss Cline of Whitewater is dressing making at Dr. E. H. Hull's.

Miss Virginia Goodrich is enjoying a week's vacation from her work at the University of Wisconsin.

A number of the neighbors and friends of P. Elphick and family gave them a farewell party. They expect to leave for Montana soon.

Miss Laura Root, who teaches near Jamesville, is enjoying a week's vacation.

Miss Helen Goodrich has been visiting in Chicago.

ELECTION OF OFFICERS IN TOWN OF MAGNOLIA

Magnolia Center, April 8.—The supervisors and officers elected in the Magnolia town election Tuesday are as follows:

Chairman of Supervisors, Frank P. Bennett.
Supervisors: Dan Drew and P. F. Ryan.
Town Clerk: R. E. Acheson.
Town Assessor: W. B. Andrews.
Town Treasurer: A. F. Townsend.
Justice of the Peace: S. J. Troock.
Town Constables: Arthur Roehl and S. E. Wells.

Magnolia Center, April 7.—Miss Ethel Woodstock spent the past week with relatives at Evansville.

Mr. and Mrs. John Giesman and family entertained Sunday.

Miss Marie Meely returned home from Leyden Monday.

Mr. and Mrs. Bert Clifford of Iowa are visiting relatives and friends.

Mr. and Mrs. Ed Fox and son spent Sunday at Evansville.

A large crowd attended the Helpers' Union at the home of Mr. and Mrs. W. B. Andrews.

School in Dist. No. 3 opened Monday after a week's vacation.

The H. S. students are enjoying a week's vacation.

ADVERTISED LETTERS.

Gents: A. E. Aalto, H. Gates, Leon Griffin, Ole Gunderson, Jos. Hume, John Hume, E. Jones, Theo. Konedall, Thomas Maloney, John Martin, P. J. Murphy, E. L. Neumeister, Dr. J. F. Palmer, John Peterson, Fred Smith, Archie Thompson, J. A. Wright, Raymond Martin.

Firms: Acme Novelty Co., Park Hotel, Garage.

Ladies: Mrs. J. Austin, Miss Isabelle Gerhardt, Mrs. Ellsworth, Miss Mabel Gerhardt, Mrs. Groth, Mrs. D. Murry, Miss Katie O'Connor, Mrs. R. Richards, Agnes Thompson, Mrs. Watson, Miss Besse Wright, Mrs. Tams Wright.

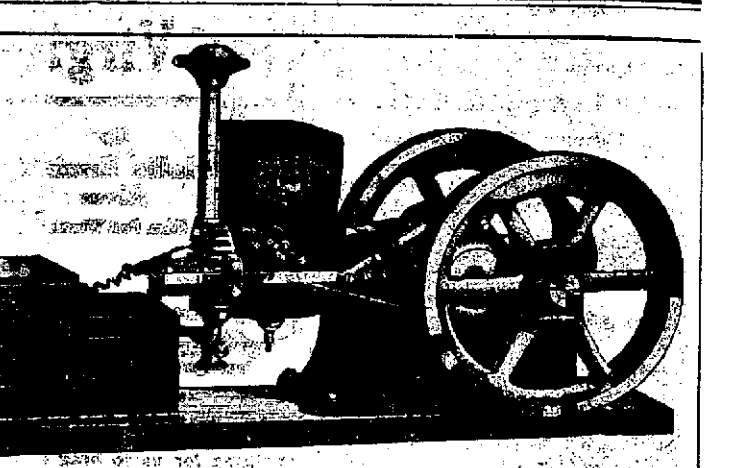

Dyspepsia Routed by Laughter.
You may beat your dyspepsia by joking at it. I sat down at the club lunch opposite an artist suffering from indigestion, myself being a fellow sufferer. I prescribed: Let's take the absolutely worst things! We ordered roast pork, roly-poly pudding and Scotch ale, laughed all the time at the solemn men who were giving other advice, and when we met again confessed that our dyspepsia had disappeared in laughter!—London Chronicle.

D. D. D. Prescription

—for 15 years the standard skin remedy—a liquid used externally—instant relief from all kinds of itch.

D. D. D. Soap
the mildest of cleansers—keeps the skin always clean and healthy.

Bachelor Girl

SELF RISING WHEAT Flour

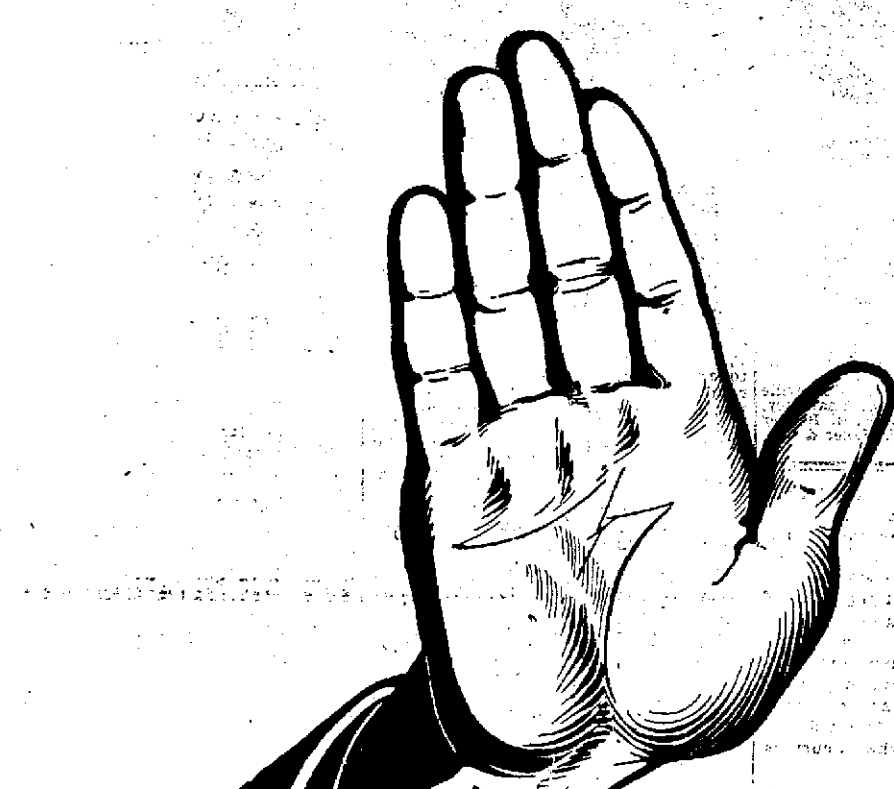

Beginning Thursday, The Bachelor Girl WILL DEMONSTRATE AT DEDRICK BROS.

Bachelor Girl Flour is manufactured and prepared to meet the demands of the busy housekeeper. It saves the usual bother, expense and uncertainty of mixing the usual ingredients. You can have biscuits by simply mixing with milk or water and a little lard.

The other recipes are equally as easily prepared. Thirty well-tested recipes are contained in every sack. Ask your grocer. He has it or will get it for you.

FOR SALE AT THE FOLLOWING DEALERS:
Dedrick Bros., W. J. Rothermel, Nolan Bros., Jamesville Tea Co., (both stores), J. H. Jones, Tarrant & Osgood, Grubb Produce Co., H. S. Johnson, Taylor Bros., Roesling Bros.

WHOLESALE DISTRIBUTORS:
CHESBROUGH & MOSS CO.

STOP Coffee Drinkers, And think a minute!

Some persons seem able, for a time at least, to get along with coffee, but it contains a subtle, habit-forming drug, caffeine, which sooner or later is pretty sure to rob one of health and comfort.

If you know coffee don't harm you—if you feel prime and fit under its continued use, well and good—stick to it.

But—if you are sometimes a bit "off color," and irritable nerves, disturbed heart action, biliousness, headache, or symptoms of liver or kidney trouble make you wonder what's the matter—

Better find out what coffee has to do with it.
Evidently some people are learning the truth about coffee—listen—
During 1913 the sales of coffee in this country decreased over one hundred million pounds.
A mighty army of former coffee drinkers now use

POSTUM

and enjoy freedom from their old coffee aches and pains.
Postum, made of whole wheat and a bit of molasses, is a delicious table beverage absolutely free from the coffee drugs, caffeine and tannin.

If you are interested in bettering yourself—think it over!
Postum now comes in two forms.
Regular Postum—must be well boiled. 15c and 25c packages.
Instant Postum—a soluble powder, requires no boiling. 30c and 50c tins.
The cost per cup of both kinds is about the same.

"There's a Reason" for Postum

—sold by Grocers everywhere.

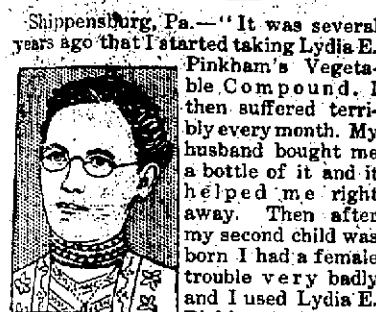

DOINGS OF THE VAN LOONS—Evidently Mother Doesn't Take Kindly to the Idea—

MRS. BEIDEL TELLS WOMEN

How Lydia E. Pinkham's Vegetable Compound Kept Her in Health for 14 Years.

Shippensburg, Pa.—"It was several years ago that I started taking Lydia E. Pinkham's Vegetable Compound. I then suffered terribly every month. My husband bought me a bottle of it and it helped me right away. Then after my second child was born I had a female trouble very badly and I used Lydia E. Pinkham's Vegetable Compound and in a short time was cured and have been in excellent health since. I always praise the Compound whenever I have an opportunity as I know it helped me and will help others. Lately I have given the Compound to my daughter and I wish all suffering women would take it and be convinced of its worth."—Mrs. JAMES A. BEIDEL, 113 N. Penn. Street, Shippensburg, Pa.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Mineral Salt Not Necessary.
Herman Melville found the Marquesas Islanders perfectly healthy; there were no invalids among them, and there was no salt, but such as the girls gathered from the sea—as a luxury to be enjoyed by a chief—at a pinch. Apparently a healthy life can be lived upon only such salt as is supplied by the vegetables the earth affords.

Bingo Took My Corns Off
No Pain
Stops pain and burning of worst corns and calluses instantly with "Bingo." No need of knives or plasters, no cutting or danger of blood poisoning. A few days and corns and calluses quickly disappear. See all druggists, or by mail, Levenson Pharmacal Co., Chicago. For sale in Janesville by J. P. Baker, druggist.

Between Women's Health or Suffering

The main reason why so many women suffer greatly at times is because of a run-down condition. Debility, poor circulation show in headaches, languor, nervousness and worry.

BEECHAM'S PILLS

(The Largest Sale of Any Medicine in the World)
are the safest, surest, most convenient and most economical remedy. They clear the system of poisons, purify the blood, relieve suffering and ensure such good health and strength that all the bodily organs work naturally and properly. In actions, feelings and looks, thousands of women have proved that Beecham's Pills

Make All The Difference
Sold everywhere. In boxes, 10c., 25c.
Women will find the directions with every box very valuable.

The Valiants of Virginia

By
Hallie Ermine Rivers
Editor, Post-Whisper

Copyright, 1914, by Hallie Ermine Rivers

"Well, sah," the major said, "I reckon under the circumstances, your first impressions of the section aren't anything for us to brag about."
"I'm delighted; it's hard for me to tell how much."
"Wait till you know the fool place," growled the doctor testily. "You'll change your tune."

The major smiled gently. "Don't be taken in by the doctor's pessimism. You'd have to get a yoke of three-year oxen to drag him out of this state."
"It would take as many for me," Valiant laughed a little. "You who have always lived here, can scarcely understand what I am feeling. I imagine. You see, I never knew till quite recently—my childhood was largely spent abroad, and I have no near relatives—that my father was a Virginian and that my ancestors always lived here. Why, there's a room upstairs with the very toys they played with when they were children. To learn that I belong to it all, that I myself am the last link in such a chain!"

"The ancestral instinct," said the doctor, "I'm glad to see that it means something still, in these rotten days."
"Of course," John Valiant continued, "every one knows that he has ancestors. But I'm beginning to see that what you call the ancestral instinct needs a locality and a place. In a way it seems to me that an old estate like this has a soul too—a sort of clan or family soul that reacts on the descendant."

"Rather a Japanese idea, isn't it?" observed the major. "But I know what you mean. Maybe that's why old Virginian families hang on to their land in spite of hell and high-water. They count their forebears, real live people, quite capable of turning over in their graves."

"Mine are beginning to seem very real to me. Though I don't even know their Christian names yet. I can judge them by their handiwork. The men who built Damory Court had a sense of beauty and of art."
"And their share of devilry, too," put in the doctor.

"I suppose so," admitted his host. "At this distance I can bear even that. But good or bad, I'm deeply thankful that they chose Virginia. Since I've been laid up, I've been browsing in the library here—"

"A bit out of date, now, I reckon," said the major, "but it used to pass muster. Your grandfather was something of a bookworm. He wrote a history of the family, didn't he?"

"Yes, I've found it. The Valiants of Virginia. I'm reading the Revolutionary chapters now. It never seemed real before—it's been only a slice of impersonal and rather dull history. But the book has made it come alive. I'm having the thrill of the globe-trotter the first time he sees the Tower of London or the field of Waterloo. I see more than that stubble-field out yonder; I see a big wooden stockade with soldiers in ragged buff and blue guarding it."

The major nodded. "Ah, yes," he said. "The Continental prison-camp. And just over this rise there I can see an old courthouse, and the Virginia Assembly building under the golden tongue-lashing of clean raw-boned Patrick Henry. I see a messenger gallop up and see the members scramble to their saddles—and then, Tarleton and his red-coats streaming up, too late."

"Well," commented the doctor deliberately, "all I have to say is, don't materialize too much to Mrs. Polly Gifford when you meet her. She'll have you lecturing to the Ladies' Church Guild before you know it."

"I hope you ride, Mr. Valiant?" the latter asked gently.
"I'm fond of it," said Valiant, "but I have no horse as yet."
"I was thinking," pursued the major, "of the coming tournament."

The doctor cut in. "A ridiculous cock-a-doodle-do which gives the young

The Other Got Up and Stood Before the Mantel-Piece in a Napoleonic Attitude.

bucks a chance to rig out in silly toggery and prance their colts before a lot of petticoats!"

"It's an annual affair," explained the major; "a kind of spectacle. For many years, by the way, it has been held on a part of this estate—perhaps you will have no objection to its use this season?—and at night there is a dance at the Country Club. By the way, you must let me introduce you here—tomorrow. I've taken the liberty already of putting your name up."

"Good lord!" growled the doctor, aside. "He counts himself young! If I'd reached your age, Bristow!"
"You have," said the major, nettled. "Four years ago!—As I was saying, Mr. Valiant, they ride for a prize. It's a very ancient thing—I've seen references to it in a colonial manuscript in the Byrd Library at Westover. No doubt it's come down directly from the old jousts."

"You don't mean to say," cried his hearer in genuine astonishment, "that Virginia has a lineal descendant of the tourney?"

The major nodded. "Yes. Certain sections of Kentucky used to have it, too, but it has died out there. It exists now only in this state. It's a curious thing that the old knightly meetings of the middle ages should survive today only on American soil and in a corner of Virginia."

Doctor Southall, meanwhile, had set his gaze on the litter of pamphlets. He turned with an appreciative eye. "You're beginning in earnest. The Agricultural Department. And the Congressional frank."

"I'm afraid I'm a sad sketch as a scientist," laughed Valiant. "My point of view has to be a somewhat practical one. I must be self-supporting. Damory Court is a big estate. It has grain lands and forest as well. If my ancestors lived from it, I can. It's not only that, he went on more slowly, "I want to make the most of the place for its own sake, too. Not only of its possibilities for earning, but of its natural beauties. I lack the resources I once had, but I can give it thought and work, and if they can bring Damory Court back to anything even remotely resembling what it once was, I'll not spare either."

The major smote his knee and even the doctor's face showed a grim, if transient approval. "I believe you'll do it!" exclaimed the former. "And let me say, sah, that the neighborhood is not unaware of the splendid generosity which is responsible for the present lack of which you speak."

Valiant put out his hand with a little gesture of deprecation, but the other disregarded it. "Confound it, sah, it was to be expected of a Valiant. Your ancestors wrote their names in capital letters over this country. They were an up and down lot, but good or bad (and, as Southall says, I reckon)—he nodded toward the great portrait above the couch—"they weren't all little woolly lambs; they did big things in a big way."

Valiant leaned forward eagerly, a question on his lips. But at the moment a diversion occurred in the shape of Uncle Jefferson, who re-entered, bearing a tray on which sat sundry jugs and clinking glasses, glowing with white and green and gold.

"You old humbug," said the doctor, "don't you know the major's that poisoned with mint-juleps already that he can't get up before eight in the morning?"

"Well, sah," tittered Uncle Jefferson, "Ah done foun' er mint-bale down below de kitchen dis mawnin'. Yo' all gemmun 'bout de bigges' expuise in dis yeah county, on Ah rack'n Mars' Vallant sho' s'at on yo' s'm-p'lin' et."

"Sah," said the major feebly, turning to his host, "I'm proud to drink your health in the typical beverage of Virginia!" He touched glasses with Valiant and glared at the doctor, who was sipping his own thoughtfully. "Poems have been written on the julep, sah."

"They make good epitaphs, too," observed the doctor.
"I noticed your glass isn't going begging," the major retorted. "Uncle Jefferson, that's as good mint as grew in the garden of Eden. See that those lazy niggers of yours don't grub the patch out by mistake."

"Yes, sah," said Uncle Jefferson, as he retired with the tray. "Ah gwine-ter put er fence aroun' dat er baid 'fo' sundown."

The question that had sprung to Valiant's lips now found utterance. "I saw you look at the portrait there," he said to the major. "Which of my ancestors is it?"

The other got up and stood before the mantel-piece in a Napoleonic attitude. "That," he said, fixing his eyes on the portrait, "is your great-grandfather, Devil-John Valiant."

"Devil-John!" echoed his host. "Yes, I've heard the name."
The doctor gawgled. "He earned it, I reckon. I never realized what a sinister expression that mischievous optics gives the old ruffian. There was a skirmish during the war on the hillside yonder and a bullet cut it out. When we were boys we used to call him 'Old One-Eye.'"

"It interests me enormously," John Valiant spoke explosively.
"The stories of Devil-John would fill a mighty big book," said the major. "By all accounts he ought to have lived in the middle ages. Crossing the library, he looked into the dining-room. 'I thought I remembered. The portrait over the console, there is his wife, your great-grandmother. They say he bet that when he brought his bride home, she should walk into Damory Court between rows of candlesticks worth twenty thousand dollars. He made the wager good, too, for when she came up those steps out there, there was a row of ten candles burning on either side of the doorway, each held by a young slave worth a thousand dollars in the market."

"Some say he grew jealous of his wife's beauty. There were any number of stories told of his cruelties to her that aren't worth repeating. She died early—poor lady—and your grandfather was the only issue. Devil-John himself lived to be past seventy, and at that age when most men were stacking their sins and groaning with the gout, he was dicing and fox-hunting with the youngest of them. He always swore he would die with his boots on, and they say when the doctor told him he had only a few hours leeway, he made his slaves dress him completely and prop him on his horse. They galloped out so, a negro on either side of him. It was a stormy night, black as the Earl of Hell's riding-boots, with wind and lightning, and he rode cursing at both. There's an old black-gum tree a mile from here that they still call Devil-John's tree. They were just passing under it when the lightning struck it. Lightning has no effect on the black-gum, you know. The bolt glanced from the tree and struck him between the two slaves without harming either of them. It killed his horse, too. That's the story. To be sure at this date nobody can separate fact from fiction. Possibly he wasn't so much worse than the rest of his neighbors—not excepting the parsons. Other times, other manners."

"They weren't any worse than the present generation," said the doctor malevolently. "Your four bottle men then knew only claret; now they punish whiskey-straight."

The major buried his nose in his julep for a long moment before he looked at the doctor blandly. "I agree with you, Bristow," he said. "But it's the first time I ever heard you admit that much good of your ancestors."

"Good," said the doctor belligerently. "Me! I don't! I said people were no better. As for the men of that time, they were a cheap swagging lot of bullies and swash-bucklers. When I read history I'm ashamed to be descended from them."

"I desire to inform you, sah," said the major, stung, "that I too am a descendant of those bullies and swash-bucklers, as you call them. And I wish from my heart I thought we, now, ah, could hold a tallow-dip to them."

"You refer, no doubt," said the doctor with sarcasm, "to our friend Devil-John and his ideal treatment of his wife?"

"No, sah," replied the major warmly. "I'm not referring to Devil-John. There were exceptions, no doubt; but for the most part they treated their

Pain Anywhere Quits Quick

Inflammations, Congestions Vanish With MEN-THO-EZE.

The very first time you use the new Men-Tho-Eze, you will be astonished at the quick relief it gives.

Just rub a little on the sore place, and it's done. You don't have to use blistering mustard ointments, smelly up the whole house with their nauseating odor.

Men-Tho-Eze is cleanly to use, does not soil the clothing, has no unpleasant odor, never burns, irritates or blisters. There is nothing like it for quick relief in cases of rheumatic pain, sore muscles, aches, headache, neuralgia, sore throat, cold in the chest, croup, catarrhs, catarrhs, piles, sprains, burns and bruises. It is guaranteed to contain no injurious drugs whatever.

Men-Tho-Eze is sold at all drug stores, 25c a box, or sent direct by the Men-Tho-Eze Co., Fort Dodge, Iowa.

For sale and recommended in Janesville by Smith Drug Co., Red Cross Pharmacy, People's Drug Co., McCue & Sons, Baker Drug Co., W. T. Sherer, J. P. Baker & Son, Reliable Drug Co.

women folk as I believe their Maker made them to be treated! The man who failed in his courtesy there, sah, was called to account for it. He was mighty apt to find himself standing in the cool dawn at the butt-end of a—"

He broke off and coughed. "There was an awkward pause in which he set down his glass noisily and rose and stood before the open bookcase. 'I envy you this, sah,' he said with somewhat of haste. 'A fine old collection. Bless my soul, what a curious volume!'"

As he spoke, his hand jerked out a heavy-looking leather-back. Valiant, who had risen and stood beside him, saw instantly that what he had drawn from the shelf was the morocco case that held the rusted dueling-pistol!

In the major's hands the broken book opened. A sudden startled look darted across his leonine face. With smothered exclamation he thrust it back between the books and closed the glass door.

Valiant had paled. His previous finding of the weapon had escaped his mind. Now he read, as clearly as if it had been printed in black-letter across the sunny wall, the significance of the major's confusion. That weapon had been in his father's hand when he faced his opponent in that fatal duel. It flashed across his mind as the doctor lunged for his hat and stick and got to his feet.

"Come, Bristow," said the latter irritably. "Your feet will grow fast to the floor presently. We mustn't talk a new neighbor to death. I've got to see a patient at six."

(TO BE CONTINUED.)

URIC ACID SOLVENT

50 Cent Bottle (32 Doses) FREE

Just because you start the day worried and tired, stiff legs and arms and muscles, an aching head, burning and bearing down pains in the back—worn out before the day begins, do not think you have to stay in that condition.

Be strong, well and vigorous, with no more pain from stiff joints, sore muscles, rheumatic suffering, aching back or kidney disease.

For any form of bladder trouble or weakness, its action is really wonderful. Those sufferers who are in and out of bed half a dozen times a night will appreciate the rest, comfort and strength this treatment gives.

Dinner Stories

An enthusiastic angler was telling some friends about a fishing trip to a lake in Colorado, which he had in contemplation. "Trout bite well out there," said a friend. "Do they? Why, they're absolutely vicious. A man has to hide behind a tree to bait a hook."

While two men were driving in the country, in an automobile the car broke down. Finally one decided to walk on until his companion could make the necessary repairs and overtake him. When the car was in running order again the driver started up, and a mile farther along came to an old negro hoeing corn near the roadside. "Did a pedestrian pass this way awhile ago?" asked the man at the wheel. "No, sah, I been right dead in this corn patch more'n an hour, an' nothin' done passed."

"An old negro hoeing corn near the roadside," said the man at the wheel. "Did a pedestrian pass this way awhile ago?" asked the man at the wheel. "No, sah, I been right dead in this corn patch more'n an hour, an' nothin' done passed."

Flea One Would Avoid.
The most injurious flea is the Chigoe, or sand flea, which comes from the Kerguelen islands, in the India ocean. There is also one with claws like those of a lobster, which is found on a small bird in South America.

DOCTOR SAID THIS BABY MUST DIE

When sending this picture of her baby, Mrs. Britt of Athol, Mass., said: "The doctor told me that my baby would not live, but I gave him Father John's Medicine and now he is well and strong. The medicine made him eat well and gave him strength to walk." Mrs. Britt lives at 283 Kennebunk street, Athol, Mass. MOTHERS should remember that Father John's Medicine is a safe medicine to give their children, because it is free from alcohol or dangerous drugs. It is pure, and nourishing and will build up the little ones in the natural way.

If you have any difficulty in securing Father John's Medicine from your druggist, write to Father John's Medicine, Lowell, Mass., enclosing \$1.00 for a large bottle by express prepaid.

Try MUSTEROLE For That Lame Back!

Rub it on briskly—massage it in thoroughly, and note how quickly MUSTEROLE drives out the stiffness and soreness.

It beats a mustard plaster seven ways, and best of all, it doesn't blister or burn.

MUSTEROLE is a clean, white ointment made with oil of mustard. It comes in handy white glass jars. Get a jar from your druggist today.

MUSTEROLE is recommended by doctors and nurses. Millions of jars are used annually for Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it prevents pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50.

Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the MUSTEROLE Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

W. H. Thurmond, Rockfish, Va., says: "Musterole is the greatest thing I ever got hold of for muscular rheumatism, affording instant relief to sore and stiff joints and muscles."
